MINIM MARTAP BAUXITE PROJECT (100% CAY)

Exploration Program

The CAMALCO team has been working closely with SRK Mining and Exploration Consultants at the Bobodji Camp site, with drilling continuing at the nearby Makan and Ngaoundal permits, which are located within the broader Minim Martap Bauxite Project. The program is targeting new resources to add to the existing 1,027 million tonnes of high-grade bauxite¹, and drilling continues with multiple rigs on site.

Site Infrastructure

Canyon allocated a large proportion of work in first quarter to developing local site infrastructure and laying foundational groundwork required in anticipation of the Cameroon Government granting a Mining Permit for the development of Minim Martap.

The workstreams comprised of establishing the Scope of Work for topographical and geotechnical work supported by Sogea-Satom, sourcing of fuel supplies, installation of worker cabins and living quarters, and the arrival of the technical team to camp.

Project Development

Canyon is currently in the final stages of selecting expert consultants for the upgraded Definitive Feasibility Study (“DFS”) which will cover the Front-End Engineering Design (“FEED”) for mining, hauling, railways and port facilities. To assist in the multifaceted workstreams that took place during the quarter, the Bobodji Camp had multiple visits from a range of key management personnel and CAMALCO staff.

The Company continued discussions with Cameroonian authorities in relation to the Mining Permit, CAMRAIL, the Port Authority of Douala (PAD) and the Haul Road. Canyon is prioritising negotiations of the infrastructure developments with transport authorities (port and rail) to establish a clear project framework in advanced preparation of the Mining Permit being granted.

Corporate Activities

Prior to the end of the quarter, Canyon announced that Non-executive Chairman, Mr Mark Hohnen was appointed to the position of Executive Chairman, effective 1 April 2024. The inclusion of Mr Hohnen in the executive team provides the Company with an Australian-based leader and leverages his extensive experience in the mineral resources sector, particularly the development of mining projects in Africa.

Subsequent, to the end of the quarter, Canyon CEO Jean-Sebastien, attended Fastmarkets Bauxite & Alumina 2024 in Miami, USA. The event is one of the largest Bauxite and Alumina conferences globally and attracts delegates from the full spectrum of the supply chain including mining, transport, refining, and trading. The conference provides insight into supply challenges, pricing forecasts and regional updates on major projects which fosters an environment of networking amongst professionals that seek to overcome these challenges.

During the Quarter, expenditure on exploration and evaluation activities at the Project was approximately \$1.17 million as disclosed in the accompanying Appendix 5B and focused on maintaining the tenements that the Company holds.

The Company had a cash balance of AUD \$27.6 million at quarter end.
