DIRECTORS' REPORT (continued)

Events Subsequent to the End of the Reporting Period

No matters or circumstances have arisen since the end of the financial year that significantly affect or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

Likely Developments and Expected Results of Operations

Other than as referred to in this report, further information as to likely developments in the operations of the Group and likely results of those operations in future financial years would, in the opinion of the directors, be speculative.

Dividends

No dividends have been paid or declared by the Group.

Environmental Regulation

The Group's operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a state or territory.

Indemnity and Insurance of Officers

To the extent permitted by law, the Company indemnifies every person who is or has been:

- an Officer against any liability to any person (other than the Company) incurred while acting in that capacity and in good faith; and
- an Officer of the Company, against costs and expenses incurred by that person in that capacity in successfully defending legal proceedings and ancillary matters.

The Company has entered into a Deed of Indemnity, Access and Insurance with each of its Directors and the Company Secretary. Under the Deeds of Indemnity, Access and Insurance the Company will indemnify each officer to the extent permitted by the Corporations Act against any liability arising as a result of the officer acting as an officer of the Company. The Deeds of Indemnity, Access and Insurance also provide for the right to access Board papers and other Company records.

Indemnity and Insurance of Auditor

The Group has not, during or since the end of the financial year indemnified or agreed to indemnify the auditor of the Group or any related entity against a liability incurred by the auditor.

During the financial year, the Group has not paid a premium in respect of a contract to insure the auditor of the Group or any related entity.

Proceedings on Behalf of Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

Remuneration Report - Audited

The remuneration report details the key management personnel remuneration arrangements for the Group in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

Remuneration Policy

In determining competitive remuneration rates, the Board seeks independent advice on local and international trends among comparative companies and industry generally.

Independent advice may be obtained to confirm that executive remuneration is in line with market practice and is reasonable in the context of Australian executive reward practices. During the year no remuneration consultants were used.

Performance-based Remuneration

The Board recognises that the Group operates in a global environment. To prosper in this environment we must attract, motivate and retain key executive staff.

The principles supporting the remuneration policy are that:

- reward reflects the competitive global market in which the Group operates;
- rewards to executives are linked to creating value for shareholders;
- remuneration arrangements are equitable and facilitate the development of senior management across the Group;
- where appropriate, senior managers receive a component of their remuneration in equity to align their interests with those of the shareholders; and
- long term incentives are used to ensure that remuneration of key management personnel reflects the Group's financial performance, with particular emphasis on the Group's earnings and the consequence of the Group's performance on shareholder wealth.

CAPRICE RESOURCES LTD
ABN 96 624 970 725
DIRECTORS' REPORT (continued)

Market Comparisons

Consistent with attracting and retaining talented executives, the Board endorses the use of incentive and bonus payments. The Board continues to seek external advice to ensure reasonableness in remuneration scale and structure, and to compare the Company's position with the external market. The impact and high cost of replacing senior employees and the competition for talented executives requires the Board to reward key employees when they deliver consistently high performance.

Board Remuneration

The Board determines actual payments to Directors and reviews their remuneration annually based on independent external advice with regard to market practice, relativities, and the duties and accountabilities of directors. A review of Directors' remuneration is conducted annually to benchmark overall remuneration including retirement benefits.

Directors' Fees

Executive Remuneration

The objective of the Company's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with achievement of strategic objectives and the creation of value for shareholders.

The Board ensures that executive reward satisfies the following key criteria for good reward corporate governance practices:

- Competitiveness and reasonableness
- Acceptability to shareholders
- Performance linkage/alignment of executive compensation
- Transparency
- Capital management

The Company has structured an executive framework that is market competitive and complementary to the reward strategy for the organisation.

The Board's policy for determining the nature and amount of remuneration for Board members and executives of the Company is as follows:

- The remuneration policy, setting the terms and conditions for executive directors and executives, was developed and approved by the Board. All executives receive a fee, part of which may be taken as superannuation, and from time to time, options. Options issued to Directors are subject to approval by Shareholders. The Board reviews executive packages regularly by reference to the Company's performance, executives' performance and comparable information from industry sectors and other listed companies in similar industries. The Board may in its discretion establish a performance-based bonus system to provide reward in addition to the base salary level to the executives on such terms as the Board may determine.
- Salaried executive directors and specified executives are allocated superannuation guarantee contributions as required by law, and do not receive any other retirement benefits. From time to time, some individuals may choose to sacrifice their salary or consulting fees to increase payments towards superannuation.
- All remuneration paid to directors and specified executives is valued at the cost to the Company and expensed. Options are valued using either the ASX trading price (for listed options issued) or the Black-Scholes methodology (for unlisted options issued).

Service Agreements

A summary of service agreements entered into with Executives is set out below:

Executive	Term of Agreement	Base Salary per annum including any Superannuation* (Non-performance based)	Termination Conditions	Elements of Remuneration related to Performance
Mr Andrew Muir	Ongoing until terminated in accordance with the agreement	\$275,000	3 months' notice by either party	3,750,000 performance rights
Mr Scott Patrizi ¹	Ongoing until terminated in accordance with the agreement	\$36,000	1 month notice by either party	1,000,000 options

* Base salary quoted is the position as at 30 June 2022; salaries are reviewed annually

¹ Mr Patrizi resigned on 11 August 2021

Non-Executive Remuneration

Shareholders approve the maximum aggregate remuneration for non-executive directors. The maximum aggregate remuneration approved for Non-Executive Directors is determined from time to time by a general meeting.

It is recognised that non-executive director remuneration is ideally structured to exclude equity-based remuneration. However, whilst the Company remains small and the full Board, including the Non-Executive Directors, are included in the operations of the Company more intimately than may be the case with larger companies, the Non-Executive Directors are entitled to participate in equity-based remuneration schemes.

Bonus or Profit Participation Plan

Performance incentives may be offered to executive directors and senior management of the Company through the operation of a bonus or profit participation plan at the ultimate discretion of the Board.

Details of the remuneration of the directors and key management personnel of the Company (as defined in AASB 124 *Related Party Disclosures*) are set out in the following tables.

There were no other transactions with Directors or key management personnel other than those included in the below remuneration tables or as disclosed elsewhere in the Directors' Report.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

The consolidated financial statements and notes represent those of Caprice Resources Ltd (the Company) and Controlled Entity (the Group or consolidated entity). Caprice Resources Ltd is a listed public company limited by shares, incorporated and domiciled in Australia.

The separate financial statements of the parent entity, Caprice Resources Ltd, have not been presented within this financial report as permitted by the Corporations Act 2001. Supplementary information about the parent entity is disclosed in Note 27.

The consolidated financial statements were authorised for issue on 29 September 2022 by the Directors of Caprice Resources Ltd.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

This general purpose consolidated financial statements has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board. The consolidated entity is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the Australian Accounting Standards Board has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of the consolidated financial statements are presented below and have been consistently applied unless stated otherwise.

Compliance with IFRS

The consolidated financial statements of the Caprice Resources Ltd comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

New or amended Accounting Standards and Interpretations adopted by the Group

The Group has adopted all of the new and revised Accounting Standards and Interpretations issued by the Australian Accounting Standards Board that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the Group incurred a net loss of \$1,366,052 and had net cash outflow from operating activities of \$924,380 and financing activities of \$2,264,181 for the year ended 30 June 2022. The ability of the Group to continue as a going concern is primarily dependent on securing additional funding through the issue of additional equity securities.

These factors indicate a material uncertainty which may cast significant doubt as to whether the Group will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The Directors believe that it is reasonably foreseeable that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- a. The Directors believe that future funding will be available to meet the Group's objectives and debts as and when they fall due, including through engaging with parties interested in joint venture arrangements and/or raising additional capital through equity placements to existing or new investors. The Group has a demonstrated history of success in this regard with the Directors being confident in the ability to continue to raise additional funds on a timely basis, as and when required; and
- b. The Group has the capacity, if necessary, to reduce its operating cost structure in order to reduce its working capital requirements.

CAPRICE RESOURCES LTD
ABN 96 624 970 725

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

The financial statements do not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the consolidated entity does not continue as a going concern.

Historical cost convention

These consolidated financial statements have been prepared on an accrual basis under the historical cost convention.

Critical accounting estimates, judgements and assumptions

The preparation of consolidated financial statements requires the use of certain critical accounting estimates, judgements and assumptions. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 1(s).

Accounting Policies

a. Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 27.

b. Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Caprice Resources Limited ('company' or 'parent entity') as at 30 June 2022 and the results of all subsidiaries for the year then ended. Caprice Resources Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

c. Other revenue and income

Interest income is recognised using the effective interest method, this is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue is recognised when it is received or when the right to receive payment is established.

CAPRICE RESOURCES LTD
ABN 96 624 970 725

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

d. Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Caprice Resources Limited (the 'head entity') and its wholly-owned Australian subsidiary have formed an income tax consolidated group under the tax consolidation regime. The head entity and its subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

e. Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is current when: it is expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within twelve months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when: it is expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within twelve months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

f. Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at-call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown as borrowings in current liabilities on the statement of financial position.

g. Trade and other receivables

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade and other receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

h. Exploration and evaluation expenditure assets

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the period in which the decision is made.

Costs incurred before the Group has obtained the legal rights to explore an area are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

i. Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

j. Right of use assets

A right of use asset is recognised at the commencement date of a lease. The right of use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where, included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

CAPRICE RESOURCES LTD
ABN 96 624 970 725

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

Right of use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Company has elected not to recognise a right of use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to Consolidated Statement of Profit or Loss and Other Comprehensive Income as incurred.

k. Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

l. Trade and other payables

Trade and other payables represent the liabilities for goods and services received by the Group that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

m. Contributed equity

Ordinary shares are classified as equity. Costs directly attributable to the issue of new shares or options are shown as a deduction from the equity proceeds, net of any income tax benefit recognised.

n. Share based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

CAPRICE RESOURCES LTD
ABN 96 624 970 725

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

o. Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the consolidated entity assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the consolidated entity's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Where the business combination is achieved in stages, the consolidated entity remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

CAPRICE RESOURCES LTD
ABN 96 624 970 725

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

p. Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

q. Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from financing and investing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers. Commitments and contingencies are disclosed net of GST.

r. Critical accounting estimates and judgements

The directors evaluate estimates and judgements incorporated into the consolidated financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

CAPRICE RESOURCES LTD

ABN 96 624 970 725

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*continued*)

Exploration and evaluation costs have been capitalised on the basis that the Group will commence commercial production in the future, from which time the costs will be amortised in proportion to the depletion of the mineral resources. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised. In addition, costs are only capitalised that are expected to be recovered either through successful development or sale of the relevant mining interest. Factors that could impact the future commercial production at the mine include the level of reserves and resources, future technology changes, which could impact the cost of mining, future legal changes and changes in commodity prices. To the extent that capitalised costs are determined not to be recoverable in the future, they will be written off in the period in which this determination is made.

(ii) *Share-based payment transactions*

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of the options issued are determined by an internal valuation using a Black-Scholes option pricing model, using the assumptions detailed in the notes to the financial statements. The assumptions detailed in the note is also judgemental.

For equity transactions with consultants and other employees, the fair value reflects the value attributable to services where applicable. Where there is no quantifiable value of services the value of options is calculated using the Black-Scholes option pricing model.

For instruments issued with market-based conditions, alternative valuation methodologies would be adopted.

(iii) *Business combinations*

As stated in note 11, business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the consolidated entity taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.

t. **Segment reporting**

Operating segments are now reported in a manner that is consistent with the internal reporting to the Chief Operating Decision Maker, which has been identified by the Group as the Executive Director and other members of the board of directors.

The Group has identified its operating segment based on the internal reports that are reviewed and used by the board of directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics. For the current reporting period, the Group's sole activity was mineral exploration and resource development wholly within Australia, which is its only reportable segment.

The reportable segment is represented by the consolidated financial statements forming this financial report.

NOTE 2: SEGMENT INFORMATION

The Group's operations are in one reportable business segment, being the exploration for gold, lead, zinc and copper. The Group operates in one geographical segment, being Australia.

NOTE 11: ACQUISITION OF SUBSIDIARY

During October 2020, the Company completed the acquisition of 100% of the issued share capital of Goldview Metals Pty Ltd (**Goldview**) which holds the tenements for the Island Gold Project.

The consideration for the acquisition of Goldview was as follows:

- Exclusivity Payment: a non-refundable \$100,000 cash payment to Goldview;
- Upfront Scrip consideration: 16,680,000 shares in the Company issued to the shareholders of Goldview or their nominees;
- Repayment of expenses: \$80,000 paid in cash;
- Expenditure Commitment: the Group to meet exploration expenditure commitments of \$1,000,000 within the first 12 months upon completion of the transaction;
- Royalty: Goldview's major shareholder, Michael Caruso, will retain a 1.5% Net Profit After Tax (NPAT) royalty over material processed from the Island Gold Project. The Company has the right to purchase the 1.5% NPAT royalty for \$1,500,000 at any time before the commencement of production;
- Milestone payment: 5,000,000 shares in the Company to be issued to shareholders of Goldview or their nominees upon reporting to the ASX a mineral resource in accordance with the JORC 2012 Edition Guidelines of a minimum of 250,000 ounces of gold at a minimum grade of 2.0 g/t of gold. These shares have not been brought to account in the financial statements and are disclosed as a contingent liability in Note 18; and
- Board appointment right: Michael Caruso was appointed to the Company's Board of Directors as a Non-Executive Director.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Dividends

There were no dividends paid or declared during the year.

Capital risk management

When managing capital, management's objective is to ensure the Group continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the Group. In order to maintain or adjust the capital structure, the Group may adjust the amounts of dividends paid to shareholders, return capital to shareholders, issue new shares, enter into joint ventures or sell assets.

The Group is not subject to any externally imposed capital requirements.

FOR THE YEAR ENDED 30 JUNE 2022

NOTE 24: FINANCIAL INSTRUMENTS

Financial Risk Management

The Group's principal financial instruments are Cash and cash equivalents, Trade and other receivables, and Trade and other payables.

Overview

The Group has exposure to the following financial risks from their use of financial instruments:

- liquidity risk
- credit risk
- market risk (interest rate risk)

This note presents information about the Group's exposure to each of the above risks. The Group had nominal foreign exchange risk for 2022 and no foreign exchange risk for 2021. The Group had insignificant foreign currency transactions or balances.

Financial Risk Management Policies

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework.

Risk management policies are established by the Board of Directors to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits.

	2022	2021
	\$	\$
Financial Assets		
Cash and cash equivalents	1,958,751	3,315,439
Trade and other receivables	50,750	129,041

Financial Liabilities		
Trade and other payables	232,716	80,772
	<u>232,716</u>	<u>80,772</u>

Liquidity Risk and Liquidity Risk Management

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure that it will have sufficient cash to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of credit facilities or other fund-raising initiatives.

The Board frequently reviews budget variance analyses that include working capital projections to monitor working capital requirements and optimise cash utilisation.

CAPRICE RESOURCES LTD
ABN 96 624 970 725

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 24: FINANCIAL INSTRUMENTS (continued)

The Group continuously monitors forecast and actual cash flows and the maturity profiles of financial assets and financial liabilities to manage its liquidity risk.

The following are the contractual maturities of financial liabilities:

At 30 June 2022

	Weighted average interest rate %	Carrying Amount	Under 6 Months	6 – 12 Months	1 - 2 years	2 – 5 years
Non-derivative financial liabilities:						
Trade and other payables (Note 14)	-	232,716	232,716	-	-	-
		232,716	232,716	-	-	-

At 30 June 2021

	Weighted average interest rate %	Carrying Amount	Under 6 Months	6 – 12 Months	1 – 2 years	2 – 5 years
Non-derivative financial liabilities:						
Trade and other payables (Note 14)	-	80,772	80,772	-	-	-
		80,772	80,772	-	-	-

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Credit Risk

Credit risk refers to the risk that counterparties will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted the policy of only dealing with credit worthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults.

Banks and financial institutions are chosen only if they are independently rated parties with a minimum rating of 'A'.

The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics.

The carrying amount of financial assets recorded in the financial statements, net of any provisions for losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral or other security obtained.

Financial risk management objectives

The Group's activities expose it to a variety of financial risks: market risk (including price risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management program seeks to minimise potential adverse effects on the financial performance of the Group. The Group uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and other price risks, and ageing analysis for credit risk.

Risk management is carried out by the Board of Directors. These policies include identification and analysis of the risk exposure of the Group and appropriate procedures, controls and risk limits.

NOTE 25: INTERESTS OF KEY MANAGEMENT PERSONNEL

Refer to the remuneration report contained in the Directors' Report for additional details of the remuneration paid or payable to each member of the Group's key management personnel (**KMP**) for the year ended 30 June 2022.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF
CAPRICE RESOURCES LTD**

Opinion

We have audited the financial report of Caprice Resources Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to Note 1 in the financial report, which indicates that the Group incurred a loss of \$1,366,052 and had net cash outflows from operating activities of \$924,380 and from investing activities of \$2,264,181 for the year ended 30 June 2022. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty related to going concern* section of our report, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed this matter
Exploration and evaluation assets Refer to Note 10 in the financial report	
<p>The Group has capitalised exploration and evaluation expenditure with a carrying value of \$11,455,373 at the reporting date.</p> <p>We considered this to be a key audit matter due to the significant management judgments involved in assessing the carrying value of the assets including:</p> <ul style="list-style-type: none"> Determining whether the exploration and evaluation expenditure can be associated with finding specific mineral resources and the basis on which that expenditure is allocated to an area of interest; Assessing whether any indicators of impairment are present at the reporting date and if so, judgement applied to determine and quantify any impairment loss; and Assessing whether exploration activities have reached a stage at which the existence of economically recoverable reserves may be determined. 	<p>Our audit procedures in relation to the carrying value of exploration and evaluation expenditure included:</p> <ul style="list-style-type: none"> Assessing whether the Group's accounting policy in compliance with Accounting Standards; Agreeing a sample of additions to supporting documentation relating to the areas of interest; Assessing and evaluating management's assessment that no indicators of impairment existed for those tenements where the Group has current rights of tenure; and Through discussions with the management and review of the Board Minutes, ASX announcements and other relevant documentation, assessing management's determination that exploration activities have not yet progressed to the stage where the existence or otherwise of economically recoverable reserves may be determined.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2022 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Caprice Resources Limited, for the year ended 30 June 2022, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
