1 DETAILS OF THE OFFERS

1.1. STRUCTURE OF THE OFFERS

(a) Entitlement Offer

Under the non-renounceable Entitlement Offer of approximately 102,023,068 Shares on the basis of 1 new Share for every 4 Shares held on the record date, at an issue price of \$0.02 each to raise up to \$2,040,461 before costs. Each Eligible Shareholder has the opportunity to subscribe for one new Share for every four Shares held on the Record Date. Eligible Shareholders may also apply for Shares in excess of their entitlement (see Section 1.3 for details).

Entitlements under the Entitlement Offer will be rounded down to the nearest whole number.

Eligible Shareholders are being sent this Prospectus together with a personalised Acceptance Form and are invited to apply for Shares. The Entitlement Offer opens on 7 February 2020 and closes at 5.00pm (WST) on 27 February 2020.

(b) Shortfall Offer

Any Shares not subscribed for under the Entitlement Offer will form the Shortfall and will be offered under the Shortfall Offer. The Shortfall Offer is a separate offer under this Prospectus. The issue price of the Shares under the Shortfall Offer is \$0.02 each (equal to the issue price under the Entitlement Offer).

Exempt Investors may apply for additional Shares under the Shortfall Offer provided they are eligible under all applicable securities laws to receive an offer under the Shortfall Offer.

The Shortfall Offer will open after the close of the Entitlement Offer in accordance with the applicable ASX Listing Rules and the Corporations Act and the Company reserves the right to close the Shortfall Offer at any point prior to the closing date of the Shortfall Offer.

(c) Placement Offer

Under the Placement Offer, up to 50,000,000 New Shares are being offered to Placement Recipients at an issue price of \$0.02 each to raise up to \$1,000,000 before costs.

Placement Recipients will be sent this Prospectus together with a Placement Offer Acceptance Form and are invited to apply for New Shares. The Placement Offer opens on 7 February 2020 and closes at 5.00pm (WST) on 27 February 2020.

1.2. PURPOSE OF THE OFFERS

The purpose of the Entitlement Offer, the Shortfall Offer and the Placement Offer (together the “Offers”) is to raise between \$2,000,000 to \$3,040,461 (before costs) to enable the Company to:

- continue exploration at Amersfoort Project beyond the minimum required to maintain good standing;
- comply with the requirements of the ASX to enable the removal of the trading suspension in Shares and reinstatement to the Official List; and

- provide the Company with additional working capital.

Assuming that the Offers are fully subscribed, the funds raised under the Offers are planned to be used in accordance with the table set out below:

Use of funds	Amount
Expenses of the Offers (excluding GST)	\$140,000
Exploration of the Company's Amersfoort Project	\$1,550,000
Payment of creditors	\$377,549
Working capital ¹	\$972,912
Total	\$3,040,061

Notes:

Working capital may include wages, payments to contractors, rent and outgoings, insurance, accounting, audit, legal and listing fees, payments to creditors, interest payments, other items of a general administrative nature and cash reserves which may be used in connection with the Company's activities, as determined by the Board at the relevant time.

The above table is a statement of the Board's current intention as at the date of this Prospectus. However, Shareholders should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Board reserves the right to alter the way the funds are applied.

If Entitlements under the Entitlement Offer are not fully taken up by the Shareholders then this may have an effect on the rate at which any plans are undertaken by the Company, such as exploration programs. Additional funding through debt or equity may be considered by the Board where it is appropriate to accelerate a specific project or transaction.

If the Company decides to make any significant acquisitions of, or significant investments in, companies or other assets that are complimentary to its business, then it is possible that such acquisitions would be funded by additional financing through debt or equity (subject to any necessary Shareholder approvals).

1.3. ADDITIONAL SHARES

Eligible Shareholders may also apply for Shares in excess of their entitlement under the Entitlement Offer ("**Additional Shares**").

Any Additional Shares will be limited to the extent that there are sufficient Shares from Eligible Shareholders who do not take up their full entitlement (i.e. that form part of the Shortfall) or from Shares that would have been offered to Ineligible Shareholders if they had been entitled to participate in the Entitlement Offer.

Additional Shares will only be allocated to Eligible Shareholders, if and to the extent that the Company so determines, in its absolute discretion, having regard to circumstances as at the time of the close of the Entitlement Offer and subject to the Corporations Act and the ASX Listing Rules. The Company may apply any scale-back in its absolute discretion. The Company decision on the number of Additional Shares allocated to Eligible Shareholders will be final.

To the extent that there remains any shortfall in the take-up of the Entitlement Offer following allocations of Additional Shares, the Directors reserve the right to issue the Shortfall at their discretion.

The Company reserves the right to pay a fee of up to 5% of the value of any Shortfall Shares or shares issued under the Placement Offer placed to holders of an Australia Financial Services Licence in respect of Shortfall Shares or shares issued under the Placement Offer placed to their clients.

1.4. ELIGIBLE SHAREHOLDERS

Eligible Shareholders for the purposes of the Entitlement Offer are those persons who:

- are registered as a holder of Shares as at 5.00pm (WST) on the Record Date; and
- have a registered address in Australia or New Zealand.

The Entitlements Offer made to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2002 (New Zealand)*.

1.5. INELIGIBLE SHAREHOLDERS

Shareholders who are not Eligible Shareholders are **Ineligible Shareholders**.

The Company has determined, in reliance on ASX Listing Rule 7.7.1, that it would be unreasonable to extend the Offer to Ineligible Shareholders, having regard to:

- the small number of Ineligible Shareholders;
- the small number and value of the Shares which would be offered to Ineligible Shareholders if they were Eligible Shareholders; and
- the cost of complying with the legal and regulatory requirements in the respective overseas jurisdictions.

Accordingly, this Entitlement Offer is not being extended to any Shareholders outside Australia and New Zealand. The Company will notify all Ineligible Shareholders of the Offer and advise that the Company is not extending the Entitlement Offer to those Shareholders.

1.6. FOREIGN SHAREHOLDER RESTRICTIONS

The Prospectus does not constitute an offer in any jurisdiction where, or to any person to whom, it would not be lawful to issue this Prospectus or make such an offer. No action has been taken to register or qualify the Shares or the Entitlements Offer or otherwise to permit an offering of the Shares in any jurisdiction outside of Australia and New Zealand.

Where the Prospectus has been dispatched to Shareholders domiciled outside Australia or New Zealand and where that country's securities code or legislation prohibits or restricts in any way the making of the Entitlements Offer contemplated by this Prospectus, then the Prospectus and accompanying Acceptance Form are provided for information purposes only. It is the responsibility of any applicant to ensure compliance with any laws of a country relevant to their application. The return of a duly completed Acceptance Form will be taken by the Company as a representation and warranty by the Applicant that there has been no breach of such laws and that the Applicant is an Eligible Shareholder.

1.7. NO RIGHTS TRADING

Entitlements under the Entitlement Offer are non-renounceable and accordingly cannot be traded on the ASX or any other stock exchange, or privately transferred.

1.8. MINIMUM SUBSCRIPTION

There is no minimum level of subscription for the Entitlement Offer.

1.9. RANKING OF SHARES

Shares to be issued pursuant to the Offers will be issued on a fully paid basis and will rank equally in all respect with existing Shares.

A summary of the rights and liabilities attaching to the Shares is set out in Section 5.3.

1.10. UNDERWRITING

The Offers are not underwritten.

1.11. ISSUE OF SHARES

The issue of Shares under this Prospectus will occur in accordance with the timetable. Upon Shares being issued under the Offers, holding statements will be issued to applicants as required by ASX. It is the responsibility of applicants to determine their allocation prior to trading in the Shares. Applicants who sell their Shares before they receive their holding statement will do so at their own risk.

1.12. APPLICATION MONIES

All Application Monies for Shares to be issued pursuant to the Entitlement Offer will be held in the Application Account on behalf of applicants until the Shares are issued or, if the Shares are not issued, until the Application Monies are returned to applicants. All interest (if any) earned on Application Monies (including those which do not result in the issue of Shares) will be retained by the Company.

Amounts received by the Company in excess of an applicant's entitlement ("**Excess Amount**") may be treated as application to apply for as many Additional Shares as the Excess Amount will pay for in full. Alternatively, such Entitlement Offer Applications may not be accepted.

Any Applications Monies received for more than an applicant's final allocation of Shares and Additional Shares (if any) will be refunded as soon as practicable after the Entitlement Offer Closing Date.

If the Shares are not issued to an applicant, a cheque will be drawn and the relevant Application Monies will be refunded as soon as practicable after the Entitlement Offer Closing Date.

1.13. ASX QUOTATION

The Company will apply to ASX within 7 days after the date of this Prospectus for quotation of the Shares offered under this Prospectus.

If approval for quotation of the Shares to be issued under the Offers is not granted within 3 months after the date of this Prospectus, the Company will not issue any Shares and will repay all Application Monies without interest as soon as practicable.

The Company notes, however, that its Shares have been suspended from quotation since 4 October 2017 and it is anticipated that its Shares will remain suspended until the Company can satisfy certain requirements of the ASX.

The Shares were initially suspended as a result of an impairment of the Amersfoort Project in the Company's accounts due to a dispute with the Company's joint venture partner. This dispute has been resolved and the Company's accounts no longer record this asset as impaired. Please refer to the Company's ASX announcement dated 23 January 2020 for further information.

On 16 January 2020, 23 January 2020 and 28 January 2020, the Company made submissions to ASX with respect to being reinstated to trading addressing various issues previously raised by ASX, including the above impairment issue, as well as seeking, pursuant to the recent policy set out in ASX Guidance Note 33, an extension to ensure that the Company is not delisted on 3 February 2020, being the date the policy comes into effect.

ASX Guidance Note 33 provides that an extension to the date of automatic removal of long term suspended entities for up to three (3) months may be granted where a Company is in the final stages of implementing a transaction. The Company has been in discussions with ASX with respect to its application of the delisting deadline and will contemporaneously with the lodgment of this Prospectus apply for an extension of time on the basis that this is a situation which is analogous to the situation provided for in ASX Guidance Note 33 in that the Company is in the process of raising sufficient funds to meet the requirements of ASX Listing Rule 12.2.

The Company will keep Shareholders informed of the status of its suspension and proposed reinstatement to trading in accordance with its corporate governance policies and continuous disclosure requirements.

The Company notes that the Entitlement Offer is not conditional on the Company being reinstated to trading and the Company recommends Shareholders carefully consider the risk factors set out in Section 4 that could affect the performance of the Company, particularly with respect to the reinstatement to trading of its Shares on ASX.

1.14. CHES

The Company participates in the Clearing House Electronic Subregister System ("**CHES**"). ASX Settlement Pty Ltd ("**ASX Settlement**"), a wholly-owned subsidiary of ASX, operates CHES in accordance with the ASX Listing Rules and the ASX Settlement Operating Rules.

ASX Settlement will send a CHES statement to Shareholders who are broker sponsored following the completion of each Entitlement Offer. Each CHES statement will set out the number of Shares issued to the Shareholder under this Prospectus, and provide details of the Shareholder's holder identification number and the participant identification number of the sponsor. CHES allotment advices will be sent by the Share Registry.

The Share Registry will send a statement to Shareholders who are registered on the Issuer Sponsored sub-register following the completion of each Entitlement Offer. Each statement will contain the number of Shares issued to the Shareholder under this Prospectus and the Shareholder's security holder reference number.

A CHES statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes.

1.15. PRIVACY DISCLOSURE

Persons who apply for Shares under this Prospectus are asked to provide personal information to the Company, either directly or through the Share Registry. The Company and the Share Registry collect, hold and use that personal information to assess applications, to provide facilities and services to security holders and to carry out various administrative functions. Access to the information collected may be provided to the Company's agents and service providers and to ASX, ASIC and other regulatory bodies on the basis that they deal with such information in accordance with the relevant privacy laws. If the information requested is not supplied, applications may not be processed. In accordance with privacy laws, information collected in relation to specific Shareholders can be obtained by that Shareholder through contacting the Company or the Share Registry.

1.16. TAXATION

It is the responsibility of all Shareholders to satisfy themselves of the particular taxation treatment that applies to them in relation to the Entitlement Offer by consulting their own professional tax advisers. Neither the Company nor the Directors accept any liability or responsibility in respect of the taxation consequences for Shareholders as a result of the matters referred to in this Prospectus.

1.17. SHORTFALL OFFER

(a) Placement of Shortfall Shares

Exempt Investors invited by or behalf of the Company may apply for additional Shares under the Shortfall Offer under this Prospectus. The issue price of the Shares under the Shortfall Offer is \$0.02 each (equal to the issue price under the Entitlement Offer).

The Shortfall Offer will open after the close of the Entitlement Offer in accordance with the applicable ASX Listing Rules and the Corporations Act and the Company reserves the right to close the Shortfall Offer at any point prior to after the closing date of the Shortfall Offer.

The Directors reserve the right to place some or all of the Shortfall under the Shortfall Offer. The Directors will have discretion as to how to allocate such Shortfall.

Please refer to Section 2.6 for details on how to apply for Shares pursuant to the Shortfall Offer.

(b) Placement of remaining Shares

If after the close of the Shortfall Offer, any Shortfall has not been subscribed for under the Shortfall Offer, the Directors reserve the right to place some or all of the remaining Shares prior to the closing date of the Shortfall Offer. The Directors have the discretion to prioritise the placement of any such Shares to new investors in the Company.

(c) General Shortfall allocation policy

The Company cannot guarantee that you will receive the number of Shortfall Shares you apply for. If you do not receive any or all of the Shortfall Shares you applied for, the excess Application Monies will be returned to you without interest.

In the event that applications for Shortfall Shares exceed the total amount of the Shortfall, then applications will be scaled back. The Directors have the discretion to prioritise Applications for Shortfall Shares that are made by new investors in the

Company.

The Company will not allocate Shortfall Shares (or remaining Shares) to the extent that the recipient's voting power would be in breach of the takeover thresholds in the Corporations Act.

1.18. ADDITIONAL PURPOSE

On 20 December 2019, the Company issued 16,426,673 Shares at an issue price of \$0.02 to Exempt Investors upon conversion of the Convertible Notes and in lieu of fees payable by the Company.

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to offer those securities for sale within 12 months of their issue. Accordingly, the additional purpose of this Prospectus is to remove any trading restrictions that may attach to Shares issued by the Company on conversion of the Convertible Notes and in lieu of fees payable by the Company.

Relevantly, section 708A(11)(b) provides that a sale offer does not need disclosure to investors if:

- the relevant securities are in a class of securities of the company that are already quoted on the ASX;
- a prospectus is lodged with ASIC either:
 - on or after the day on which the relevant securities were issued (section 708A(11)(b)(i)); or
 - before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued (section 708A(b)(ii)); and
- the prospectus is for an offer of securities issued by the company that are in the same class of securities as the relevant securities.

The issue of Shares upon conversion of the Convertible Notes and in lieu of fees payable by the Company was not undertaken by the Company for the purpose of the recipients selling or transferring the Shares. However, the Directors consider that the persons who are issued Shares should be entitled, if they wish, to on-sell their securities prior to the expiry of 12 months after being issued.

2 HOW TO APPLY

This Section 3 sets out the choices for an Eligible Shareholder with respect to applying for Shares under the Offer.

Please refer to Section 1.4 to determine who is an Eligible Shareholder.

2.1. CHOICES AVAILABLE

Eligible Shareholders may do any of the following:

- take up all or part of their entitlement under the Offer (refer to Section 2.2); or
- do nothing (refer to Section 2.3).

Eligible Shareholders may also choose to apply for Additional Shares as described in Section 1.3.

The Entitlement Offer is a non-renounceable pro rata offer to Eligible Shareholders. The Entitlement Offer is not underwritten. Eligible Shareholders who take up their entitlement in full will not have their percentage shareholding in the Company diluted by the Entitlement Offer. The percentage shareholdings of Eligible Shareholders who do not take up all of their entitlement will be diluted. For further details on the effects of the Entitlement Offer, please refer to Section 3.

2.2. TAKE UP ALL OR PART OF ENTITLEMENT

Eligible Shareholders who wish to take up all or part of their entitlement under the Entitlement Offer should complete the Acceptance Form in respect of the number of Shares (including any Additional Shares) they wish to subscribe for and arrange for payment of the Application Monies in accordance with Section 2.4.

2.3. ALLOW ALL OR PART OF ENTITLEMENT TO LAPSE

If Eligible Shareholders decide not to accept all or part of their entitlement to Shares, or fail to accept by the Entitlement Offer Closing Date, the part of their entitlement not accepted will lapse. The Shares not subscribed for will form part of the Shortfall.

Eligible Shareholders should note that if they do not take up their entitlement then although they will continue to own the same number of Shares, their percentage holding in the Company will be reduced.

2.4. MAKING AN APPLICATION UNDER THE ENTITLEMENT OFFER

Eligible Shareholders have two payment options in order to take up their entitlement under the Entitlement Offer.

Option 1: Submit a completed Acceptance Form together with a cheque, bank draft or money order.

To follow option 1, applicants should:

- complete the personalised Acceptance Form accompanying this Prospectus in accordance with the instructions set out on that form, and indicate the number of Shares (including any Additional Shares) they wish to subscribe for; and

- return the form to the Share Registry (address details below) together with a cheque, bank draft or money order which must be:
 - in respect of the full Application Monies (being \$0.02 multiplied by the number of Shares (including any Additional Shares) they wish to subscribe for); and
 - in Australian currency drawn on an Australian branch of a financial institution; and
 - made payable to ‘Kinetiko Energy Limited – Application Account’ and crossed ‘Not Negotiable’.

Applicants should ensure that sufficient funds are held in the relevant account(s) to cover the Application Monies. If the amount of the cheque for Application Monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay for the number of Shares applied for in the Acceptance Form in full, the applicant will be taken to have applied for the lower number of whole Shares as the cleared Application Monies will pay for (and to have specified that number of Shares in the Acceptance Form). Alternatively, the application will be rejected.

Cash payments will not be accepted. Receipts for payment will not be issued.

Applicants need to ensure that their completed Acceptance Form and cheque, bank draft or money order reaches the Share Registry at the address below by no later than 5.00pm (WST) on 27 February 2020.

Completed Acceptance Forms should be returned to the Share Registry at the following address:

By mail:

**Kinetiko Energy Limited Offer
C/- Automic Registry Services
GPO Box 5193
Sydney NSW 2001
Australia**

In person:

Level 5, 126 Phillip Street
Sydney NSW 2000
Australia**

Acceptance Forms (and payment of Application Monies) may not be accepted if received after 5.00pm (WST) on 22 November 2018.

Option 2: Pay via BPAY® payment

To follow option 2, applicants should pay the full Application Monies, being \$0.02 multiplied by the number of Shares comprising their entitlement (plus any Additional Shares), or, if subscribing for only part of their entitlement, the number of Shares the applicant wishes to subscribe for, via BPAY® payment in accordance with the instructions set out on the personalised Acceptance Form (which includes the biller code and the applicant’s unique customer reference number). Applicants can only make a payment via BPAY® if they are the holder of an account with an Australian financial institution.

Please note that if payment is made by BPAY®:

- the applicant does not need to submit the personalised Acceptance Form but is taken to make the statements on that form; and

- if the applicant subscribes for less than its entitlement or does not pay for its full entitlement, the applicant is taken to have taken up its entitlement in respect of such whole number of Shares which is covered in full by the Application Monies.

Applicants need to ensure that their BPAY® payment is received by the Share Registry by no later than 3.00pm (EST) on 27 February 2020. Applicants should be aware that their own financial institution may implement earlier cut off times with regards to electronic payment, and should therefore take this into consideration when making payment. It is the responsibility of the applicant to ensure that funds are submitted through BPAY® by the date and time mentioned above.

2.5. MAKING AN APPLICATION UNDER THE PLACEMENT OFFER

Persons who have received a firm allocation or other offer of Shares under the Placement Offer (either directly or via their stockbroker) may apply for Shares by arrangement with the Company.

Each such Applicant must submit a completed Placement Application Form together with the relevant Application Money before 5.00pm (WST) on the Placement Offer Closing Date, in accordance with the Company's directions.

2.8. ENQUIRIES

This document is important and should be read in its entirety. Shareholders who are in any doubt as to the course to follow should consult their stockbroker, lawyer, accountant or other professional adviser without delay.

Shareholders who:

- have questions relating to the calculation of their entitlement;
- have questions on how to complete an Acceptance Form or take up their entitlements; or
- have lost an Acceptance Form and would like a replacement form,

should call Kinetiko Energy Limited Offer Information Line on +61 1300 288 664 between 9.00am to 5.00pm (AEST) Monday to Friday during the Offer period.

3 EFFECT OF THE OFFERS

3.1. PRINCIPAL EFFECT OF THE ENTITLEMENT OFFER ON THE COMPANY

Assuming full subscription under the Entitlement Offer, the potential effect of the Entitlement Offer will be that:

- cash reserves will increase by approximately \$2,040,461 (before costs); and
- the number of fully paid ordinary shares on issue will increase from 408,092,273 to approximately 510,115,341 (560,115,341 if the Company issues the maximum number of Shares to Placement Recipients under the Placement).

Shareholders should note that due to rounding of entitlements under the Entitlement Offer on the Record Date, among other things, the exact number of Shares to be issued will not be known until completion of the Entitlement Offer.

3.2. PRINCIPAL EFFECTS OF THE PLACEMENT ON THE COMPANY

As set out in Section 1.1, up to 50,000,000 Shares may be issued pursuant to the Placement, which is being conducted by the Company independently of the Offers. If the Placement is fully subscribed (assuming the Entitlement Offer is also fully subscribed), the principal effects of the Placement will be to:

- increase the total number of Shares on issue from 510,115,341 (post Entitlement Offer, assuming fully subscribed) Shares to 560,115,341 Shares; and
- increase the Company's cash reserves by \$1,000,000 (before the costs of the Placement are paid).

3.3. CAPITAL STRUCTURE

The table below provides a summary of the capital structure of the Company at the date of this Prospectus and upon completion of the Offers.

Capital structure	Existing	Full Subscription
Existing Shares	408,092,273	408,092,273
Shares under the Entitlement Offer	-	102,023,068
Share issued under the Placement Offer after 30 January 2020 but prior to the Entitlement Offer Closing Date	-	50,000,000
Total Shares	408,092,273	560,115,341
Existing Options exercisable at \$0.03 each on or before 31 December 2021	36,518,022	36,518,022
Fully diluted share capital	444,610,295	596,633,363

Notes:

As at the date of this Prospectus the Company has sufficient available Listing Rule 7.1 capacity to issue all Shares being offered under the Placement Offer.

3.4. EFFECT OF THE ENTITLEMENT OFFER ON CONTROL

The Offer is a pro rata offer so that if all Eligible Shareholders take up their entitlements, the voting power of all Eligible Shareholders will remain the same. In that event, there will be no actual or potential effect or consequences arising from the Offer on control of the Company other than the dilution of any Ineligible Shareholders who are unable to participate in the Offer (assuming no other Shares are issued, no Options are exercised).

The proportional shareholding interest and voting power in the Company of Eligible Shareholders who do not accept part of their Rights will be diluted. The extent of that dilution will depend on the degree to which Eligible Shareholders as a whole accept their Rights.

The proportional shareholding interest and voting power of Excluded Shareholders may be diluted because those Shareholders are not entitled to participate in the Entitlement Offer.

The proportional shareholdings of Eligible Shareholders who do not take up their entitlements in full will be diluted.

The proportional shareholdings of Ineligible Shareholders will be diluted as those Shareholders are not entitled to participate in the Entitlement Offer.

No Shares will be issued pursuant to the Entitlement Offer in contravention of section 606 of the Corporations Act.

3.5. EFFECT OF THE PLACEMENT OFFER ON CONTROL

If the Placement Offer is fully subscribed, 50,000,000 Shares will be issued. Assuming the Placement Offer is fully subscribed, this would represent 12.25% of the Company's issued Share capital (assuming no other Shares are issued and no Options are exercised).

The placement of Shares issued under the Placement Offer will be arranged by the Company. All Shares will be placed to Placement Recipients, each of whom will be a sophisticated or professional investor (as those terms are defined in the Corporations Act).

- (a) The Placement Offer is open to certain investors by invitation of the Company, however, the Company will not issue Shares under the Placement Offer to related parties of the Company or any other person if the issue would breach the takeover prohibition in section 606 of the Corporations Act. Therefore, it is not anticipated that the Placement Offer will have a material effect on control.
- (b) The Company does not anticipate that any recipient of Securities under the Placement Offer will acquire a relevant interest of 20% or more in the Company's Shares after completion of the Placement Offer.

3.6. PRO FORMA STATEMENT OF FINANCIAL POSITION

Set out on the following page is the audit reviewed statement of financial position for the Company at 31 December 2019, and pro forma statement of financial position at 31 December 2019. The unaudited pro forma statement of financial position has been prepared on the basis and assumption that there have been no material movements in the assets and liabilities of the Company between 31 December 2019 and completion of the Offer other than:

- (a) the issue of up to approximately 102,023,068 Shares at an issue price of \$0.02 each through the Offer to raise up to approximately \$2,040,461 before costs;

- (b) the issue of up to 50,000,000 Shares at an issue price of \$0.02 each through the Placement Offer to raise up to approximately \$1,000,000 before costs; and
- (c) the estimated expenses of the Offer is approximately \$140,000, which amounts are shown as a deduction against issued capital;

The significant accounting policies upon which the statement of financial position and the pro forma statement of financial position are based are contained in the audited Annual Report for the year ended 30 June 2019.

3.8. EFFECTS OF THE OFFERS ON ACTIVITIES OF THE COMPANY

The issue of Shares under the Offers will provide funds for the purposes set out in Section 1.2.

4 RISK FACTORS

As with any share investment, there are risks associated with an investment in the Company. The numerous risk factors are both of a specific and a general nature. Some can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated.

This Section 4 identifies the major areas of risk associated with an investment in the Company, but should not be taken as an exhaustive list of the risk factors to which the Company and its Shareholders are exposed. Potential investors should read the entire Prospectus and consult their stockbroker, lawyer, accountant or other professional adviser before deciding whether to apply for Shares.

4.1. SPECIFIC RISKS

(a) Quotation and Delisting Risk

The Company's securities have been suspended since 4 October 2017 and it is anticipated that the Company's securities will remain suspended until the Company can satisfy certain requirements of the ASX.

On 16 January 2020, 23 January 2020 and 28 January 2020, the Company made submissions to ASX with respect to being reinstated to trading addressing various issues previously raised by ASX, including the above impairment issue, as well as seeking, pursuant to the recent policy set out in ASX Guidance Note 33, an extension to ensure that the Company is not delisted on 3 February 2020, being the date the policy comes into effect.

ASX Guidance Note 33 provides that an extension to the date of automatic removal of long term suspended entities for up to three (3) months may be granted where a Company is in the final stages of implementing a transaction. The Company has been in discussions with ASX with respect to its application of the delisting deadline and will contemporaneously with the lodgement of this Prospectus apply for an extension of time on the basis that this is a situation which is analogous to the situation provided for in ASX Guidance Note 33 in that the Company is in the process of raising sufficient funds to meet the requirements of ASX Listing Rule 12.2.

Whilst the Company will apply to the ASX for an extension to ensure that the Company is not delisted there is a risk that this extension is not granted by the ASX and as a result the Company may be removed from the ASX Official List on 3 February 2020. If this does occur then the Company will need to make application to the ASX for readmission to the Official List. If the Company is not readmitted to the Official List then there will be no formal market place for the sale and purchase of the Shares. This will result in the Shares being issued in an unlisted vehicle with and determination of their value difficult.

Please refer to Section 1.13 for further information regarding the Company's reinstatement to the Official List.

The Offer is not conditional on the requotation or continued listing of the Company's securities. The Company will be accepting all validly completed Acceptance Forms and issuing the Shares regardless of whether its securities remain suspended on the Closing Date.

(b) Resource Estimates

Resource estimates are expressions of judgment based on drilling results, past experience with gas projects, knowledge, experience, industry practice and many

other factors. Estimates which are valid when made may change substantially when new information becomes available. Gas estimation is an interpretive process based on available data and interpretations and thus estimations may prove to be inaccurate.

In addition, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Should the Company encounter gas accumulations or formations different from those predicted by past sampling and drilling, resource estimates may have to be adjusted and production plans altered in a way which could impact adversely on the operations of the Company.

The actual quality and characteristics of gas deposits cannot be known until production takes place, and will almost always differ from the assumptions used to develop resources. Further, values of gas deposits are based on future costs and future prices and consequently, the actual gas resources may differ from those estimated, which may result in either a positive or negative effect on operations.

(c) **Additional Requirements for Funding**

In general, the Company's funding requirements depend on numerous factors including the Company's ability to generate income from its Amersfoort project, future exploration and work programs, meeting its future obligations and the acquisition of new projects. It may require further funding in addition to current cash reserves to fund exploration and development activities.

The Directors reserve the right to place the Shortfall at their discretion within 3 months after the close of the Entitlements Offer, subject to the Listing Rules and any other applicable law. However, there is no guarantee that investors will be able to be identified.

The Company's ability to raise further capital, either equity or debt, within an acceptable time, of sufficient quantum and on terms acceptable to the Company will vary according to a number of factors, including:

- prospectivity of projects (existing and/or future);
- the results of exploration, development and production;
- stock market and industry conditions; and
- the price of relevant commodities and exchange rates.

Additional equity financing, if available, may be dilutive to Shareholders and at lower prices than the current market price. Debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations or anticipated expansion.

(d) **Contract and Joint Venture Risks**

The Company is a party to a number of agreements with third parties. If the Company is unable to satisfy the terms and obligations or otherwise defaults in its obligations under those agreements, the Company's interest in the Amersfoort Project matter may be jeopardised.

(e) **Exploration Risk**

Exploration for conventional gas and coal bed methane is a speculative and high

risk activity that may be hampered by circumstances beyond the control of the Company. There is no guarantee that exploration on the Amersfoort Project in which the Company has an interest will lead to a commercially viable discovery.

Adverse weather conditions over a prolonged period can adversely affect exploration and gas production operations and the timing of revenues.

Any of these events may cause the Company to incur substantial losses and potential liabilities to government departments and third parties. Such liabilities would reduce the funds available to the Company for further exploration and evaluation of the exploration rights in which the Company has acquired an interest.

The Company has had an independent review of the Amersfoort Project to determine the potential prospectivity of the Company assets at this stage.

(f) **Operational and Technical Risks**

The current and future operations of the Company, including exploration, appraisal and possible production activities may be affected by a range of factors, including:

- geological conditions;
- limitations on activities due to seasonal weather patterns;
- alterations to Joint Venture programs and budgets;
- the availability of drilling rigs and other machinery in South Africa necessary for the Company to undertake its activities;
- unanticipated operational and technical difficulties encountered in survey, drilling and production activities;
- mechanical failure of operating plant and equipment, adverse weather conditions, industrial and environmental accidents, industrial disputes and other force majeure events;
- unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment; and
- prevention or restriction of access by reason of political unrest, outbreak of hostilities, and inability to obtain consents or approvals.

(g) **Commercialisation Risks**

Even if the Company discovers commercial quantities of natural gas, there is a risk the Company will not achieve a commercial return. The Company may not be able to transport the natural gas at a reasonable cost, or may not be able to sell the natural gas to customers at a rate which would cover its operating and capital costs. The Company has to receive regulatory and environmental approval to convert its exploration permits into production concessions. There is a risk that these approvals may not be obtained.

(h) **Commodity Price and Exchange Rate Risk**

As the Company's potential earnings will be largely derived from the sale of natural gas, the Company's future revenues and cash flows will be impacted by changes in the prices of this commodity. Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include

current and expected future supply and demand, domestic market conditions, production cost levels as well as macroeconomic conditions such as inflation and interest rates.

(i) **Title Risk**

All exploration rights which the Company may acquire either by application, sale and purchase or farm-in are regulated by applicable legislation. There is no guarantee that applications will be granted or renewed as applied for. Various conditions may also be imposed as a condition of grant. In addition, government departments may need to consent to any transfer of licences to the Company.

(j) **Foreign Exchange Rate Risk**

The price of gas in South Africa is denominated in South African Rand while the Company cost base will be in Australian dollars and South African Rand. Consequently changes in the Australian dollar foreign exchange rate will impact on the earnings of the Company. The foreign exchange rate is affected by numerous factors beyond the control of the Company, including interest rates, inflation and the general economic outlook.

This is largely beyond the company's control. There may be strategies implemented to hedge currency but this will be a decision taken by directors after consultation with experts after the issue of the Prospectus.

(k) **Management Risks**

The responsibility of overseeing the Company's day-to-day operations and its strategic management depends substantially on its directors and key personnel. There is no guarantee that if one or more of the Company's directors or key personnel cease their association with the Company, there will not be a detrimental effect on the Company.

(l) **Compliance Risk**

The Company has acquired an interest in various exploration rights. Title to these exploration rights is subject to the interest holders complying with the terms and conditions of each exploration right, including the minimum annual expenditure commitments.

There is a risk that if the interest holders do not comply with the terms and conditions of each exploration right, the Company may lose its interest in the relevant exploration right.

The Company has implemented appropriate policies and practices to mitigate the risk of noncompliance with the terms and conditions attaching to each of the exploration rights in which the Company has acquired an interest.

(m) **Climate Change Regulation**

Exploration and Development of oil and gas resources is relatively energy intensive and is dependent on the consumption of fossil fuels. Increased regulation and government policy designed to mitigate climate change may adversely affect the Company's cost of operations and adversely impact the financial performance of the Company.

The efforts of the Australian and South African governments to transition towards a lower-carbon economy may also entail extensive policy, legal, technology and market changes to address mitigation and adaption requirements related to climate change that could significantly impact the Company. Depending on the nature,

speed and focus of these changes, transition risks may pose varying levels of financial and reputational risk to the company.

Furthermore, the physical risks to the Company resulting from climate change can be event driven (acute) or longer term shifts (chronic) in climate patterns. These physical risks may have financial implications for the Company, such as direct damage to assets and indirect impacts from supply chain disruption.

(n) **Environmental Risks**

The Company's projects are subject to the laws and regulations of South Africa regarding environmental matters in that country. Many of the activities and operations of the Company cannot be carried out without prior approval from and compliance with all relevant authorities. The Company intends to conduct its activities in an environmentally responsible manner and in accordance with all applicable laws. However, the Company could be subject to liability due to risks inherent to its activities, such as accidental spills, leakages or other unforeseen circumstances.

(o) **Unforeseen Expenses**

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected.

This is an ongoing management function and it is intended to ensure that the company has systems and skilled administrative people in place to minimise the risks of unforeseen expenses as well as early warning systems should budget over runs be incurred. A system of quotation for major expenditure and requirement for expenditure authority will be implemented.

(p) **Credit Risks**

The Company intends to derive its primary revenue from gas sales. The sale of gas may occur to various customers under different contractual terms. This could expose the Company to trade credit and contractual performance risks.

(q) **No Profit to Date**

The Company has incurred losses since its inception and it is therefore not possible to evaluate its prospects based on past performance. Since the Company intends to continue investing in its exploration and development program the Directors anticipate making further losses in the foreseeable future.

While the Directors have confidence in the future revenue-earning potential of the Company, there can be no certainty that the Company will achieve or sustain profitability or achieve or sustain positive cash flow from its operating activities.

4.2. GENERAL RISKS

(a) **Reliance on key personnel**

The Company's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively, both independently and as a group. To manage its growth, the Company must attract and retain additional highly qualified management, technical, sales and marketing personnel and continue to implement and improve operational, financial and management information systems. Investors must be willing to rely to a significant extent on management's discretion and judgement, as well as the expertise and competence of outside contractors.

(b) **Investment risks**

The Shares to be issued pursuant to this Prospectus should be considered speculative due to the nature of the Company's business. There is no guarantee as to the payment of dividends, return of capital or the market value of the Shares. The prices at which an investor may be able to trade the Shares may be above or below the price paid by the investor for the Shares.

(c) **Share market risks**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. The market price of the Shares may be subject to fluctuation and may be affected by many factors including, but not limited to, the following:

- general economic outlook;
- introduction of tax reform or other new legislation;
- interest rates and inflation rates;
- currency fluctuations;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital; and
- terrorism or other hostilities.

There is also no guarantee that an active market in the Shares will develop or that the price of the Shares will increase. There may be relatively few buyers or sellers of Shares on the ASX at any particular time:

(d) **Competition risks**

The industry in which the Company will be involved is subject to domestic and global competition. While the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, and such activities or actions may, positively or negatively, affect the operating and financial performance of the Company's business.

(e) **Economy risks**

The future viability of the Company is also dependent on a number of factors which may affect the performance of all industries and not just the education industries including, but not limited to, the following:

- general economic conditions;
- changes in Government policies, taxation and other laws;
- the strength of the equity and share markets in Australia and throughout the world and, in particular, investment sentiment towards the education sector;
- movement in, or outlook on, exchange rates, interest rates and inflation rates; and
- natural disasters, social upheaval or war.

The Company's shares have been suspended from trading on the ASX since 4 October 2017. Accordingly there has been no trading in the Company's shares since that date and there is no highest and lowest sale price of Shares on ASX during the 3 months preceding the date of this Prospectus. The last sale price before the Company was suspended from trading and lodgment of this Prospectus was lodged with ASIC was \$0.02 per Share.

5.3. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The Shares will rank equally in all respects with existing fully paid ordinary shares in the capital of the Company on issue. The following is a general description of the more significant rights and liabilities attaching to the Shares. This summary is not exhaustive. Full details of provisions relating to rights attaching to the Shares are contained in the Corporations Act, ASX Listing Rules and the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Security holders are entitled to be present in person, or by proxy, attorney or representative, to attend and vote at general meetings of the Company.

Security holders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of securities, at general meetings of security holders or classes of security holders:

- (i) each security holder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a security holder or a proxy, attorney or representative of a security holder has one vote, and
- (iii) on a poll, every person present who is a security holder or a proxy, attorney or representative of a security holder shall, in respect of each fully paid security held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for the security, but in respect of partly paid securities shall have such number of votes as bears the same proportion to the total of such securities registered in the security holder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) **Dividend rights**

Subject to the rights of persons (if any) entitled to securities with special rights to dividend, the Directors may declare a final dividend out of profits in accordance with the Corporations Act and may authorise the payment or crediting by the Company to the shareholders of such a dividend. The Directors may authorise the payment or crediting by the Company to the security holders of such interim dividends as appear to the Directors to be justified by the profits of the Company. Subject to the rights of persons (if any) entitled to securities with special rights as to dividend, all dividends are to be declared and paid according to the amounts paid or credited as paid on the shares in respect of which the dividend is paid. The Company may not pay interest in respect of any dividend, whether final or interim.

(d) **Winding up**

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the security holders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the security holders or different classes of security holders. The liquidator may, with the authority of a special resolution of the Company, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no shareholder is compelled to accept any securities or other securities in respect of which there is any liability. Where an order is made for the winding-up of the Company or it is resolved by special resolution to wind up the Company, then on a distribution of assets to members, any securities classified as restricted securities at the time of the commencement of the winding up shall rank in priority after all other securities.

(e) **Transfer of securities**

Generally, securities in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act.

(f) **Variation of rights**

Pursuant to section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of security holders, vary or abrogate the rights attaching to securities.

If at any time the share capital is divided into different classes of securities, the

rights attached to any class (unless otherwise provided by the terms of issue of the securities of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued securities of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the securities of that class.
