

BULK SAMPLE TO ENHANCE MINBOS FERTILIZER PRODUCT

Minbos Resources Limited (ASX:MNB) (Minbos or the Company) is pleased to announce that it has completed a bulk sample from the Cabinda Phosphate Project.

HIGHLIGHTS

- The Company has completed a 14-tonne bulk sample, targeting Phosphate Rock material from the high-grade zone (+29% P₂O₅).
- Bulk sample currently enroute to the International Fertilizer Development Centre (IFDC) headquarters in Muscle Shoals Alabama for blend and granulation optimisation, field, and greenhouse trials.

Figure 1 - Cabinda Phosphate Project, work being undertaken to complete a bulk sample.

- Field and greenhouse trials are important for the Company, providing the technology and research for sustainable, profitable and ethical food production.
- New high-grade samples are expected to maximise the agronomic effect of planned IFDC field and greenhouse trials.
- The Company is excited by the opportunity to develop its high-grade phosphate fertilizer with several proprietary blends and organic yield-maximising recipes currently being accessed.

Figure 2 - Minbos Resources Cabinda run of mine high-grade phosphate rock, being extracted as part of the bulk sample.

- The Company is making arrangements to separately ship one tonne of molasses to the IFDC for use in the pilot plant trial.
- Sourced from the neighbouring Republic of Congo, the molasses is expected to be included in an optimised granulation plant blend, acting as a binding agent for the Phosphate Rock granule.
- The assistance of the local communities and efforts of officials to promote the benefits of the Cabinda Phosphate Project for local, provincial, national and regional communities is greatly appreciated.

-END-

Grow to eat. Grow to sell and grow to export.

Minbos is an exploration and development company with a vision to build a nutrient supply and distribution business that stimulates agricultural production and promotes food security in Angola and the broader Middle Africa region, through development of its world-class phosphate ore project within the Cabinda Province

Compliance Statement

With reference to previously reported Scoping Study Results, the Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

Forward Looking Statements

Statements contained in this release, particularly those regarding possible or assumed future performance, revenue, costs, dividends, production levels or rates, prices or potential growth of Minbos Limited, are, or may be, forward looking statements. Such statements relate to future events and expectations and, as such, involve known and unknown risks and uncertainties. Actual results and developments may differ materially from those expressed or implied by these forward-looking statements depending on a variety of factors.
