

**Developing the Dynasty Gold Project
in Ecuador's southern Andean copper-gold belt**

**Investor Presentation
May 2021**

DISCLAIMER AND FORWARD-LOOKING STATEMENTS

NOTES TO MINERAL RESOURCES

The Mineral Resource Estimates for the Dynasty Gold Project and Jerusalem Project are not reported in accordance with the JORC Code 2012. A competent person has not done sufficient work to classify the foreign estimate as mineral resources in accordance with the JORC Code 2012. It is uncertain that following evaluation and/or further exploration work that the foreign estimates will be able to be reported as mineral resources or ore reserves in accordance with the JORC Code 2012.

Pursuant to Listing Rule 5.13, Titan confirms that it is not in possession of any new information or data in respect to either the Dynasty Gold Project or the Jerusalem Gold Project and the supporting information provided in the relevant initial Announcements (being the ASX release dated 30 April 2020 with respect to the Dynasty Gold Project and the ASX release dated 21 September 2020 with respect to the Jerusalem Gold Projects) continues to apply and has not materially changed.

Project	Category	Tonnes	Au	Ag	Contained Au (oz)	Contained Ag (oz)
			(g/t)	(g/t)	(000's)	(000's)
Dynasty Gold Project	Indicated	6,622,000	4.65	36	991,000	7,673,000
	Inferred	7,824,000	4.42	36	1,113,000	9,151,000
Jerusalem Gold Project	Measured	379,000	14.20	90	173,000	1,098,000
	Indicated	576,000	13.50	95	249,000	1,760,000
	Inferred	1,775,000	15.00	101	856,000	7,673,000

COMPETENT PERSON STATEMENT

The information in this release that relates to Exploration Results of Titan and Foreign Resource Estimates is based on information compiled by Mr Schwertfeger, who is a Member of the Australian Institute of Geoscientists and is Titan's Chief Geologist. Mr Schwertfeger has sufficient experience relevant to the style of mineralisation and type under consideration and to the activity which they are undertaking to qualify as a Competent Person as defined in the 2012 edition of the JORC Code. Mr Schwertfeger consents to the inclusion in the report of matters based on his information in the form and context in which it appears.

SUMMARY INFORMATION

This document contains a summary of information about Titan and its activities that is current as at the date of this document. The information in this document is general in nature and does not purport to be complete or to contain all the information which a prospective investor may require in evaluating a possible investment in Titan or that would be required in a prospectus or a product disclosure statement prepared in accordance with the Corporations Act 2001 (Cth) (Corporations Act).

Information in this document relates to the following previous ASX announcements:

- 2 March 2021, Copper Duke Geophysics Define Multiple Porphyry Targets
- 17 February 2021, Drill Results Further Support Large Scale Gold System
- 3 February, 2021, Drill Results Confirm Widths and Extent of Iguana Vein Corridor
- 21 September 2020, Jerusalem Gold Project Concession in Ecuador Reinstated
- 19 May 2020, High-Grade Results in historical Exploration – Ecuador
- 30 April 2020, Quarterly Activities Report

AUTHORISATION

Released with the authority of the board of Titan Minerals Ltd 24 May 2021

NOT AN OFFER OF SECURITIES

This presentation has been prepared by Titan Minerals Limited ("Titan" or the "Company") and is provided for informational purposes only. This presentation does not constitute or contain an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any securities of Titan. This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in any jurisdiction (in particular, the United States), or a securities recommendation. This presentation is not a prospectus, product disclosure statement or other offering document under Australian law or any other law, and will not be lodged with the Australian Securities and Investments Commission.

NOT FINANCIAL PRODUCT ADVICE

This presentation does not constitute financial product advice and does not consider any investor's personal investment objectives, taxation situation, financial situation or needs. This presentation consists purely of factual information and does not involve or imply a recommendation of a statement of opinion in respect of whether to buy, sell or hold a financial product. An investment in Titan or Core is considered to be speculative in nature. Before making any investment decision in connection with any acquisition of securities, investors should consult their own legal, tax and/or financial advisers in relation to the information in, and action taken on the basis of, this presentation.

NO LIABILITY

To the extent permitted by law, Titan makes no guarantee representation or warranty express or implied as to the accuracy, reliability, correctness, completeness or adequacy of any statements, estimates, options, conclusions or other information contained in this presentation. To the maximum extent permitted by law, Titan and each of its affiliates and its directors, officers, employees, associates, advisers and agents expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this presentation including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this presentation including, without limitation, any financial information, any estimates or projections and any other financial information derived therefrom. Statements in this presentation are made only as of the date of this presentation unless otherwise stated and the information in this presentation remains subject to change without notice. To the extent permitted by law, no responsibility or liability is assumed by Titan or any of its affiliates and its directors, officers, employees, associates, advisers and agents for updating any information in this presentation or to inform any recipient of any new or more accurate information or any errors or mis-descriptions of which Titan and any of its affiliates or advisers may become aware.

FORWARD LOOKING STATEMENTS

Certain information in this document refers to the intentions of Titan, but these are not intended to be forecasts, forward looking statements or statements about the future matters for the purposes of the Corporations Act or any other applicable law. The occurrence of the events in the future are subject to risk, uncertainties and other actions that may cause Titan's actual results, performance or achievements to differ from those referred to in this document. Accordingly Titan and its affiliates and their directors, officers, employees and agents do not give any assurance or guarantee that the occurrence of these events referred to in the document will actually occur as contemplated.

Statements contained in this document, including but not limited to those regarding the possible or assumed future costs, performance, dividends, returns, revenue, exchange rates, potential growth of Titan, industry growth or other projections and any estimated company earnings are or may be forward looking statements. Forward-looking statements can generally be identified by the use of words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' or similar expressions. These statements relate to future events and expectations and as such involve known and unknown risks and significant uncertainties, many of which are outside the control of Titan. Actual results, performance, actions and developments of Titan may differ materially from those expressed or implied by the forward-looking statements in this document.

Such forward-looking statements speak only as of the date of this document. There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, Titan and any of its affiliates and their directors, officers, employees, agents, associates and advisers:

disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions;

do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and

disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

ACCEPTANCE

By attending an investor presentation or briefing, or accepting, accessing or reviewing this document you acknowledge and agree to the "Disclaimer" as set out above

Potential World Class Assets

Dynasty – Flagship Asset

- Foreign Current Resource: 2.1Moz (14.4Mt @ 4.5 g/t Au)(1)
- Previous small-scale mining operation
- High-grade mineralisation from surface

Copper Duke

- Multi-phase, outcropping, gold rich porphyry copper system
- Has potential to be a Tier 1 Asset
- Majors are watching this project very closely

Linderos

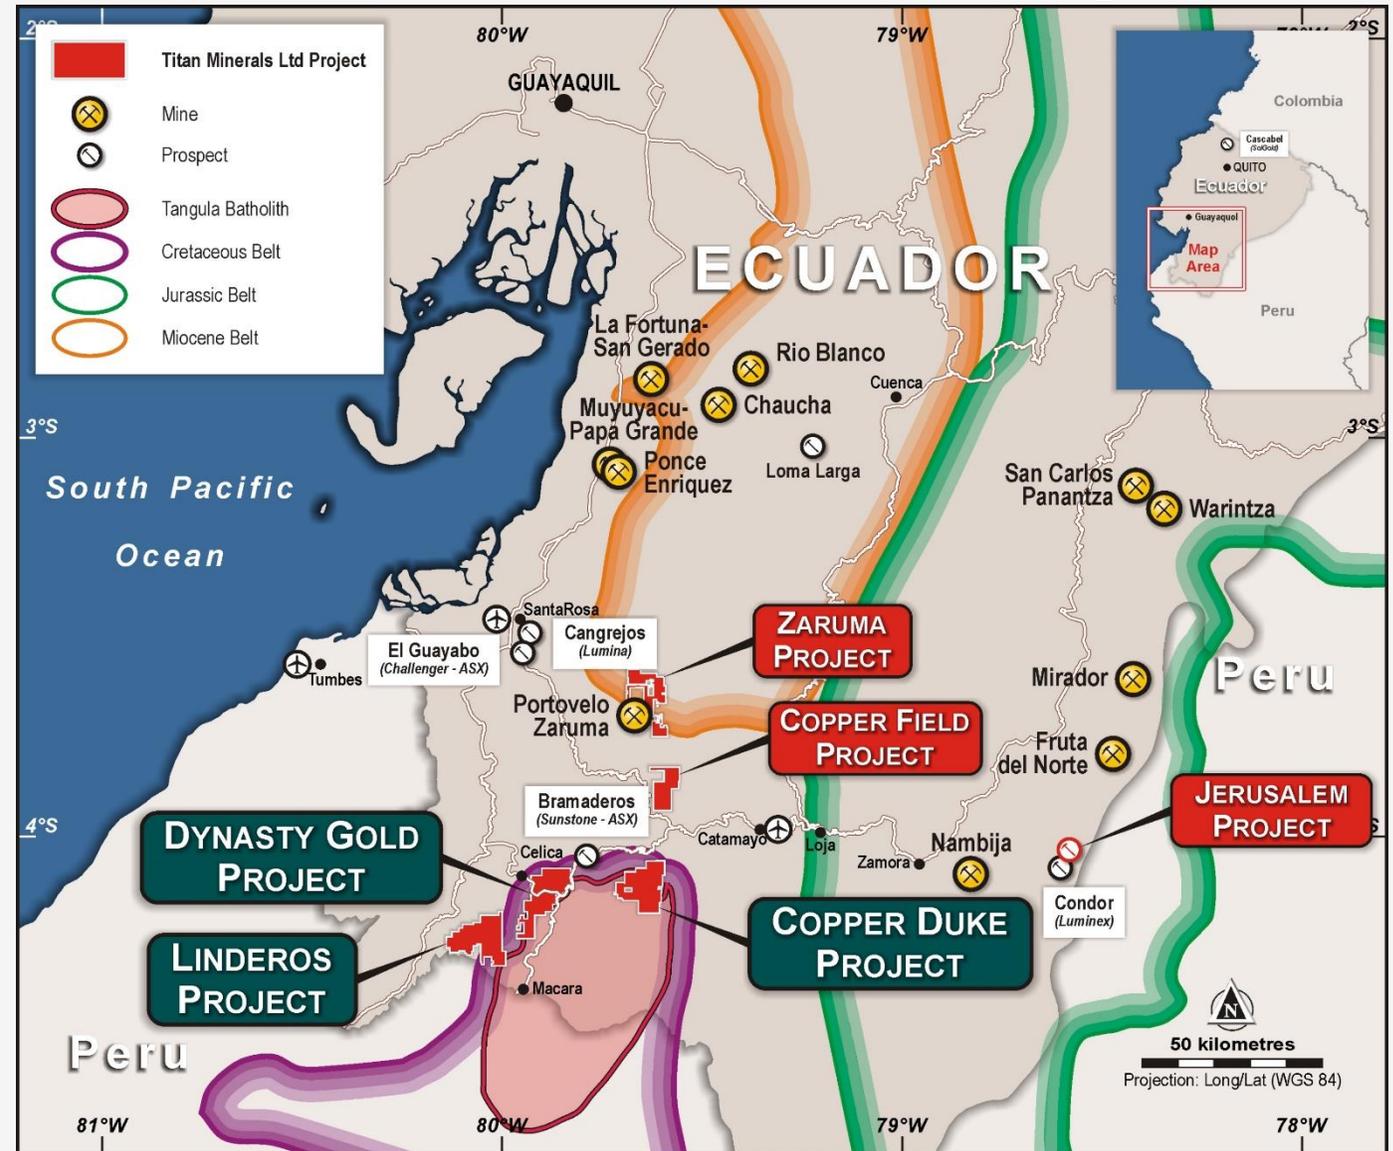

- High-grade gold discovery
- Geological potential for a multi-million ounce resource

Jerusalem (*non-core asset*)

- Foreign (NI-43-101) Resource Estimate: 1.3Moz gold @ 14.5g/t, and 8.6Moz silver @ 98g/t(1)
- Located 40km south on-trend from Fruta del Norte

Zaruma & Portovelo Plant (*non-core assets*)

- Entered into a share sale agreement for US\$15M

(1) The Mineral Resource Estimates for Dynasty and Jerusalem are not reported in accordance with the JORC Code 2012. A competent person has not done sufficient work to classify the foreign estimates as mineral resources in accordance with the JORC Code 2012. Please refer to Notes to Mineral Resources on page 2

Corporate Overview

Key Executives & Management

Michael Hardy	Non-Exec Chairman
Laurence Marsland	Managing Director
Nick Rowley	Non-Exec Director
Matthew Carr	Executive Director
David Sadgrove	Chief Financial Officer
Freddy Villao	V.P. Government Affairs – Ecuador

Technical Team

Laurence Marsland

- Mechanical engineer with 30 years experience in mining project evaluation and development
- Holds a MSc in Management from Stanford University Graduate School of Business
- Previous positions include: COO of Dundee Precious Metals, board representative for Resource Capital Funds including as Director of Toro Gold
- At Dundee, responsible for the operation, upgrading and redevelopment of Chelopech Mine (Bulgaria)

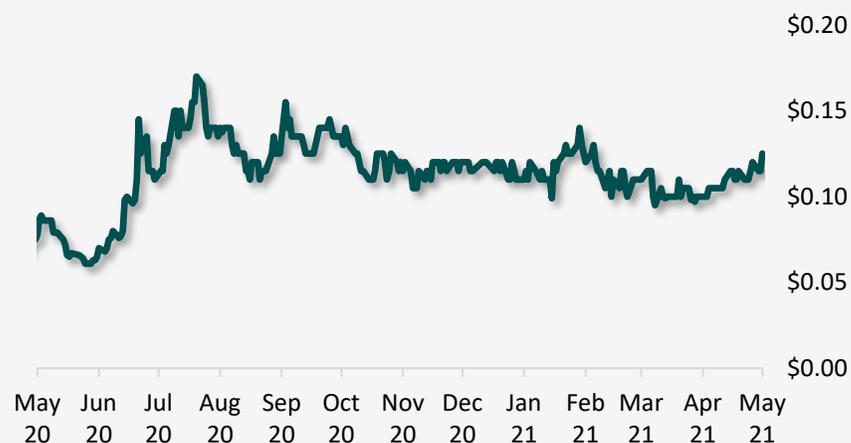

Siniša Glišić, Exploration Manager

- Master's degree of Science in Geology from the University of Belgrade. Experience predominantly in projects hosting epithermal and porphyry style systems, with the last 4 years focused on advanced project exploration and resource definition work of gold rich systems in Ecuador

Travis Schwertfeger, Chief Geologist

- 20 years experience in gold and copper projects across South America, Africa, Australia and North America, including production, mine development and exploration roles

Investment Highlights

Developing World Class Assets

- Dynasty – +2Moz gold @ 4.5g/t⁽¹⁾
- Copper Duke – gold rich porphyry copper system at surface
- Linderos – high-grade discovery

Dynasty – Pathway to Production

- Fully funded to complete current drill programme
- Drilling in progress
- Fully permitted
- Existing infrastructure
- Strong local support
- Drill results imminent

2021 Work Plan

- 12,000m drilling at Dynasty in progress
- JORC compliant resource to follow Cerro Verde drill results
- 3D geophysics modelling at Copper Duke In Progress
- Drilling at Copper Duke
- Drilling at Linderos

Highly Regarded Jurisdiction

- Ecuador has attracted major mining companies looking for world class assets
- Strategic investments already made into development focused mining companies
- New Mining Policy in June 2019

Experienced Operational Team

- Management with proven track record for developing world class assets
- Previous experience working with epithermal gold, orogenic, and porphyry style mineralisation

1) The Mineral Resource Estimates for Dynasty and Jerusalem is not reported in accordance with the JORC Code, 2012. A competent person has not done sufficient work to classify the foreign estimate as mineral resources in accordance with the JORC Code 2012. Please refer to Notes to Mineral Resources on page 2

Mining in Ecuador

Supportive

Investments in Ecuador

Road Map

Dynasty – Drilling Continuing

- 12,000m drilling programme, In Progress
- Resource drilling underway at Cerro Verde

Dynasty Geophysics

- Field Validation of Geophysical Interpretation from recent airborne surveys in Progress

Dynasty Resource Update

- JORC compliant resource estimation following Cerro Verde drill campaign

Metallurgical Studies

- Commence preliminary metallurgical studies for Dynasty Project

Dynasty – Delineation Drilling

- In-fill and extension drilling on updated geological model to underpin studies

Q2 2021

Q2 2021

Q3 2021

Q3 2021

H2 2021

Q2 2021

H2 2021

H2 2021

H2 2022

Regional Geochem - Surveys Continuing

- Systematic geochem coverage of Copper Duke, Linderos and Copperfield

Copper Duke Geophysics

- 3D geophysical modelling at Copper Duke, In Progress

Drilling – Copper Duke

- Commence maiden drill programme
- Trench high-grade gold vein targets

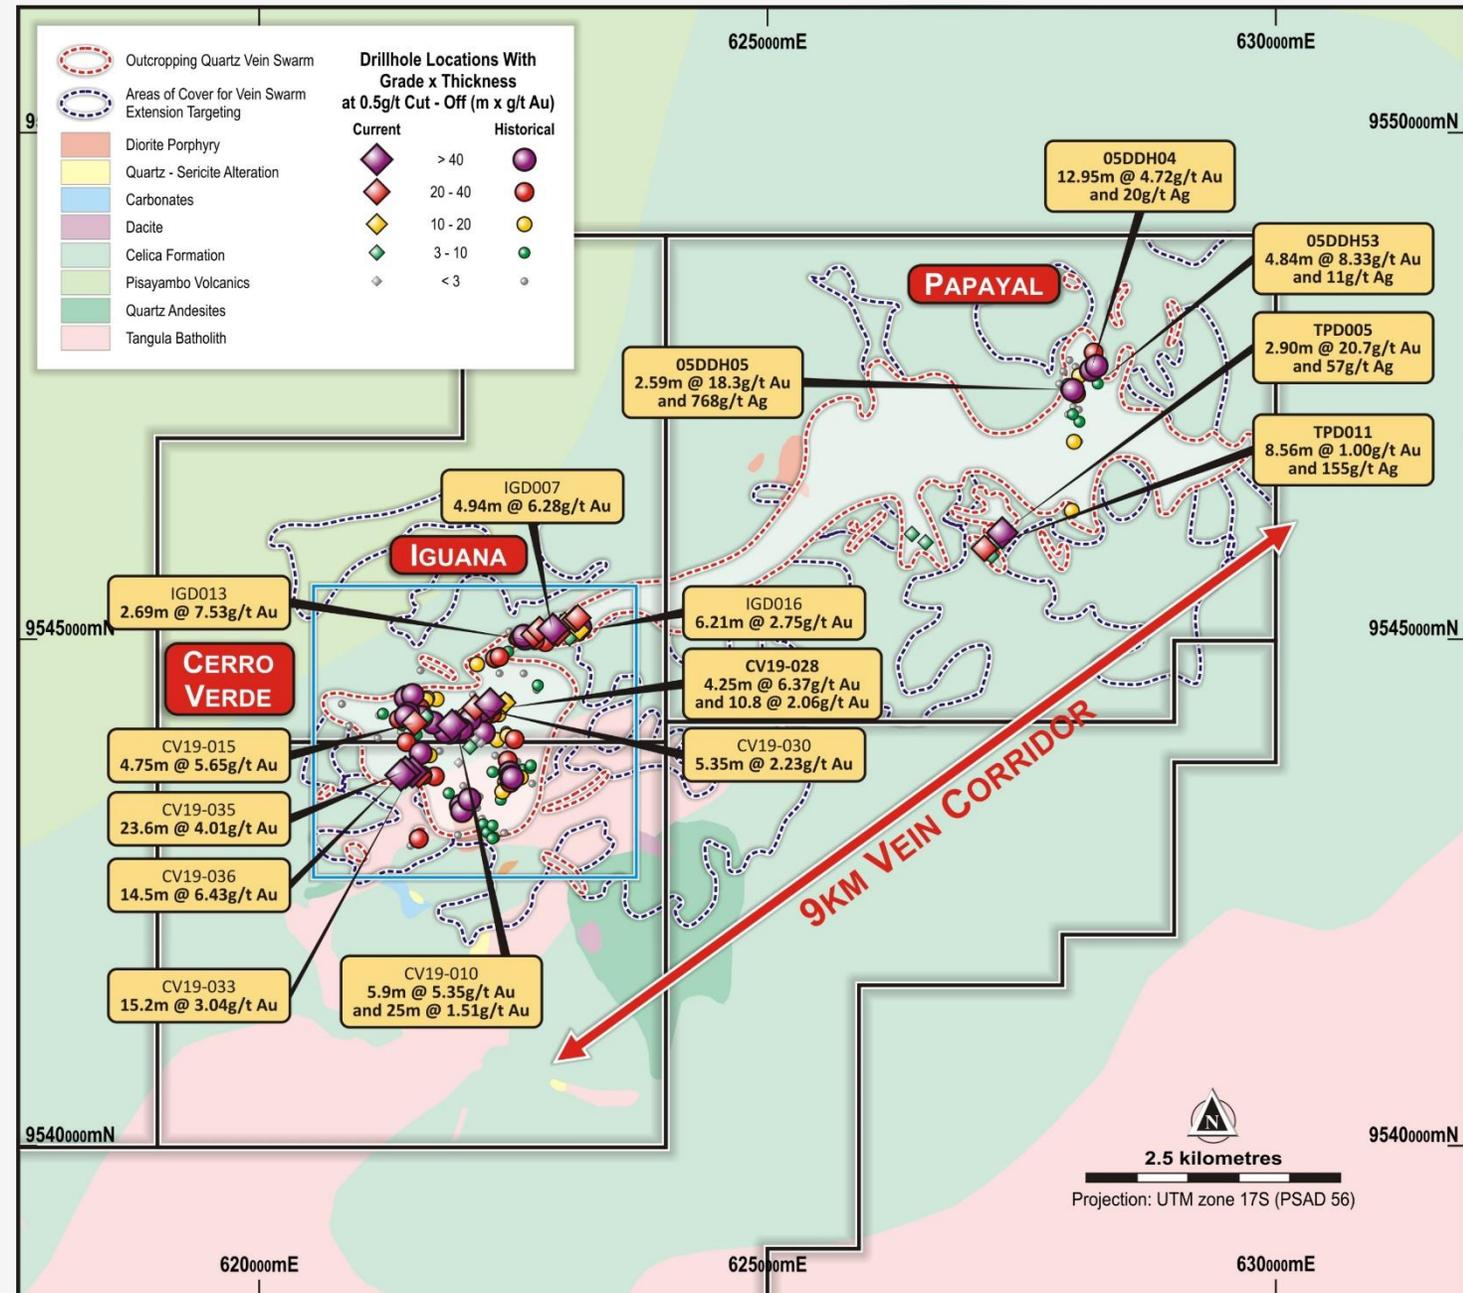

Drilling – Linderos

- Follow-up drill testing on 2018 discovery holes following geochem and geophysical study work

Develop information required to deliver a PEA at Dynasty

Dynasty Gold Project

- Foreign Resource: 2.1Moz (14.4Mt @ 4.5 g/t Au)⁽¹⁾
- 139km², 100% holding
- Permitted for drilling, with substantial growth potential
- 9km long by 1km, mineralised structural corridor with outcropping vein swarm with high-grade gold
- Close to Infrastructure
 - Pan American Hwy transects project
 - Daily flights within a 2 hour drive of any project
- Exploration activity in progress
 - 12,000m diamond drilling campaign anticipated to finish in Q3 2021
 - High-resolution magnetic survey completed
 - 33,000m re-logging campaign recently completed

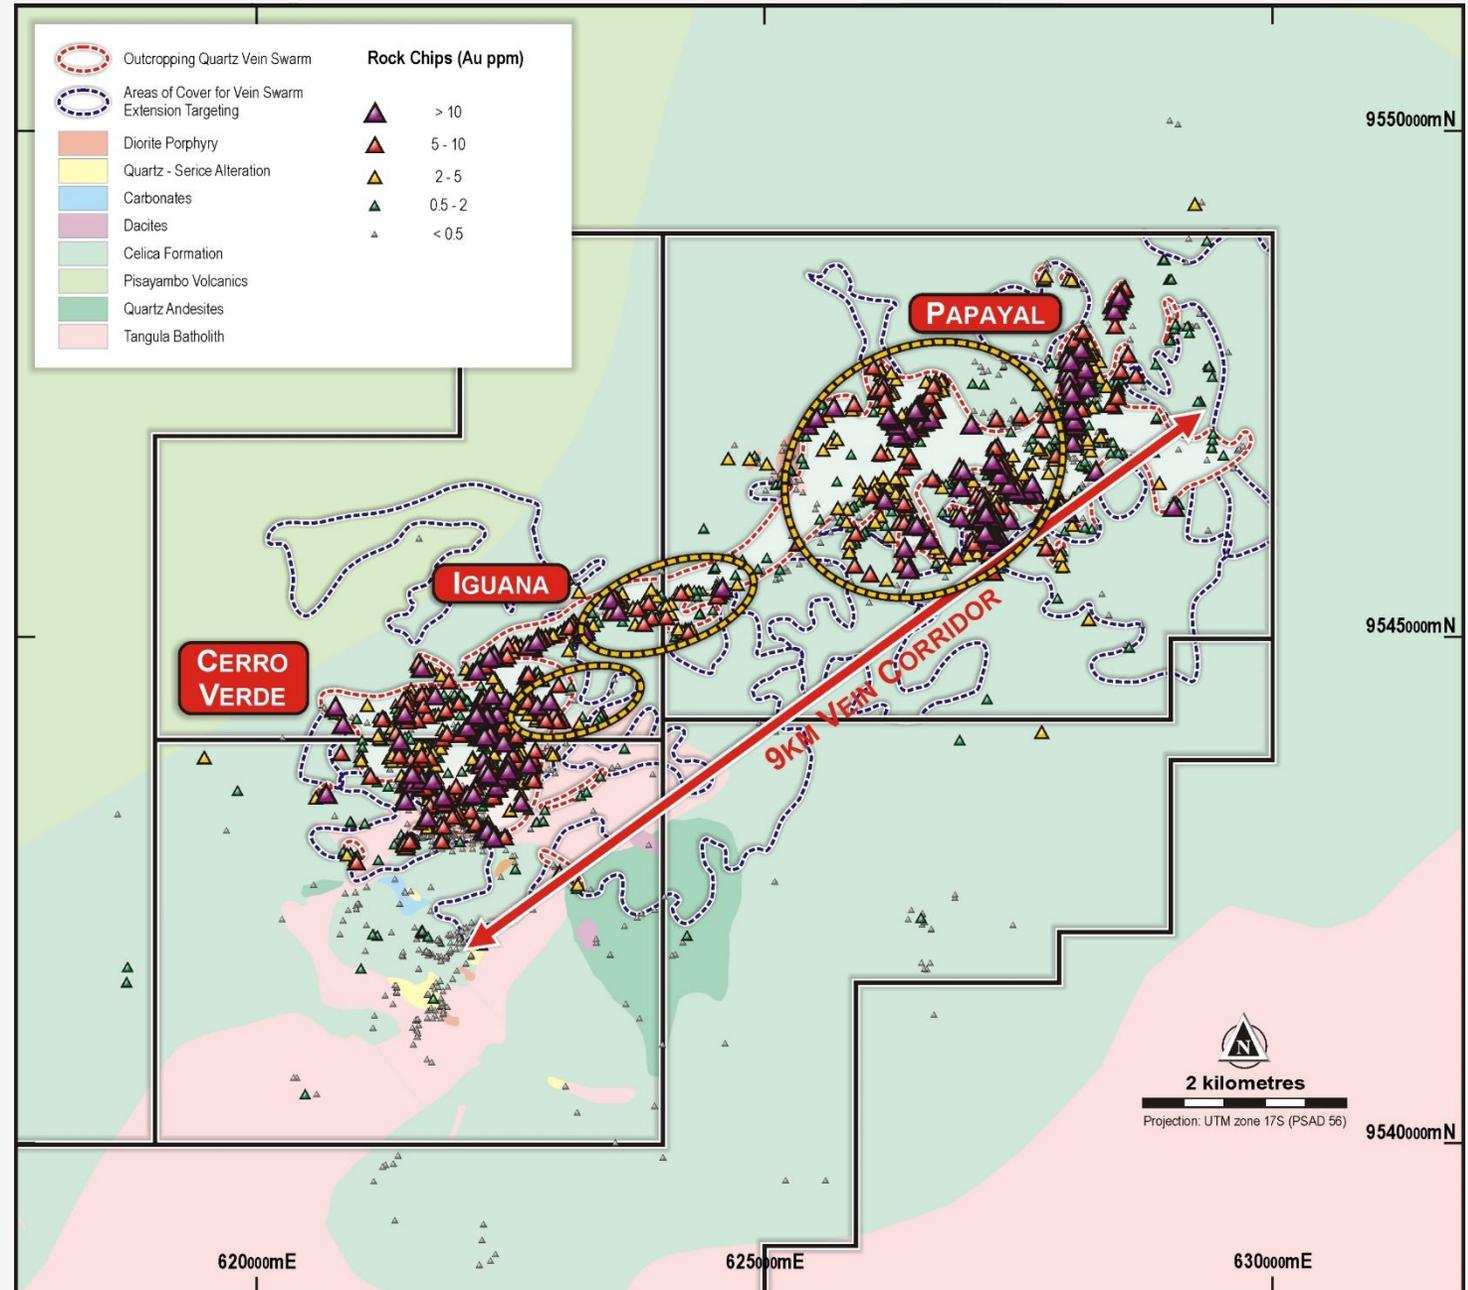

(1) The Mineral Resource Estimates for Dynasty is not reported in accordance with the JORC Code, 2012. A competent person has not done sufficient work to classify the foreign estimate as mineral resources in accordance with the JORC Code 2012. Please refer to Notes to Mineral Resources on page 2

Dynasty Gold Project

Veining mapped on topographical highs

- Mineralisation open along strike and at depth
- 5km gap in drilling on 9km high-grade surface anomaly
- Rock chip samples demonstrate extensive mineralisation
- Numerous un-drilled vein targets returning high-grade at surface
 - 1.1m @ 20.8g/t gold with 61g/t silver
 - 3.2m @ 10.5g/t gold with 78g/t silver
 - 0.60m @ 647g/t gold with 297g/t silver
 - 0.80m @ 73g/t gold with 169g/t silver

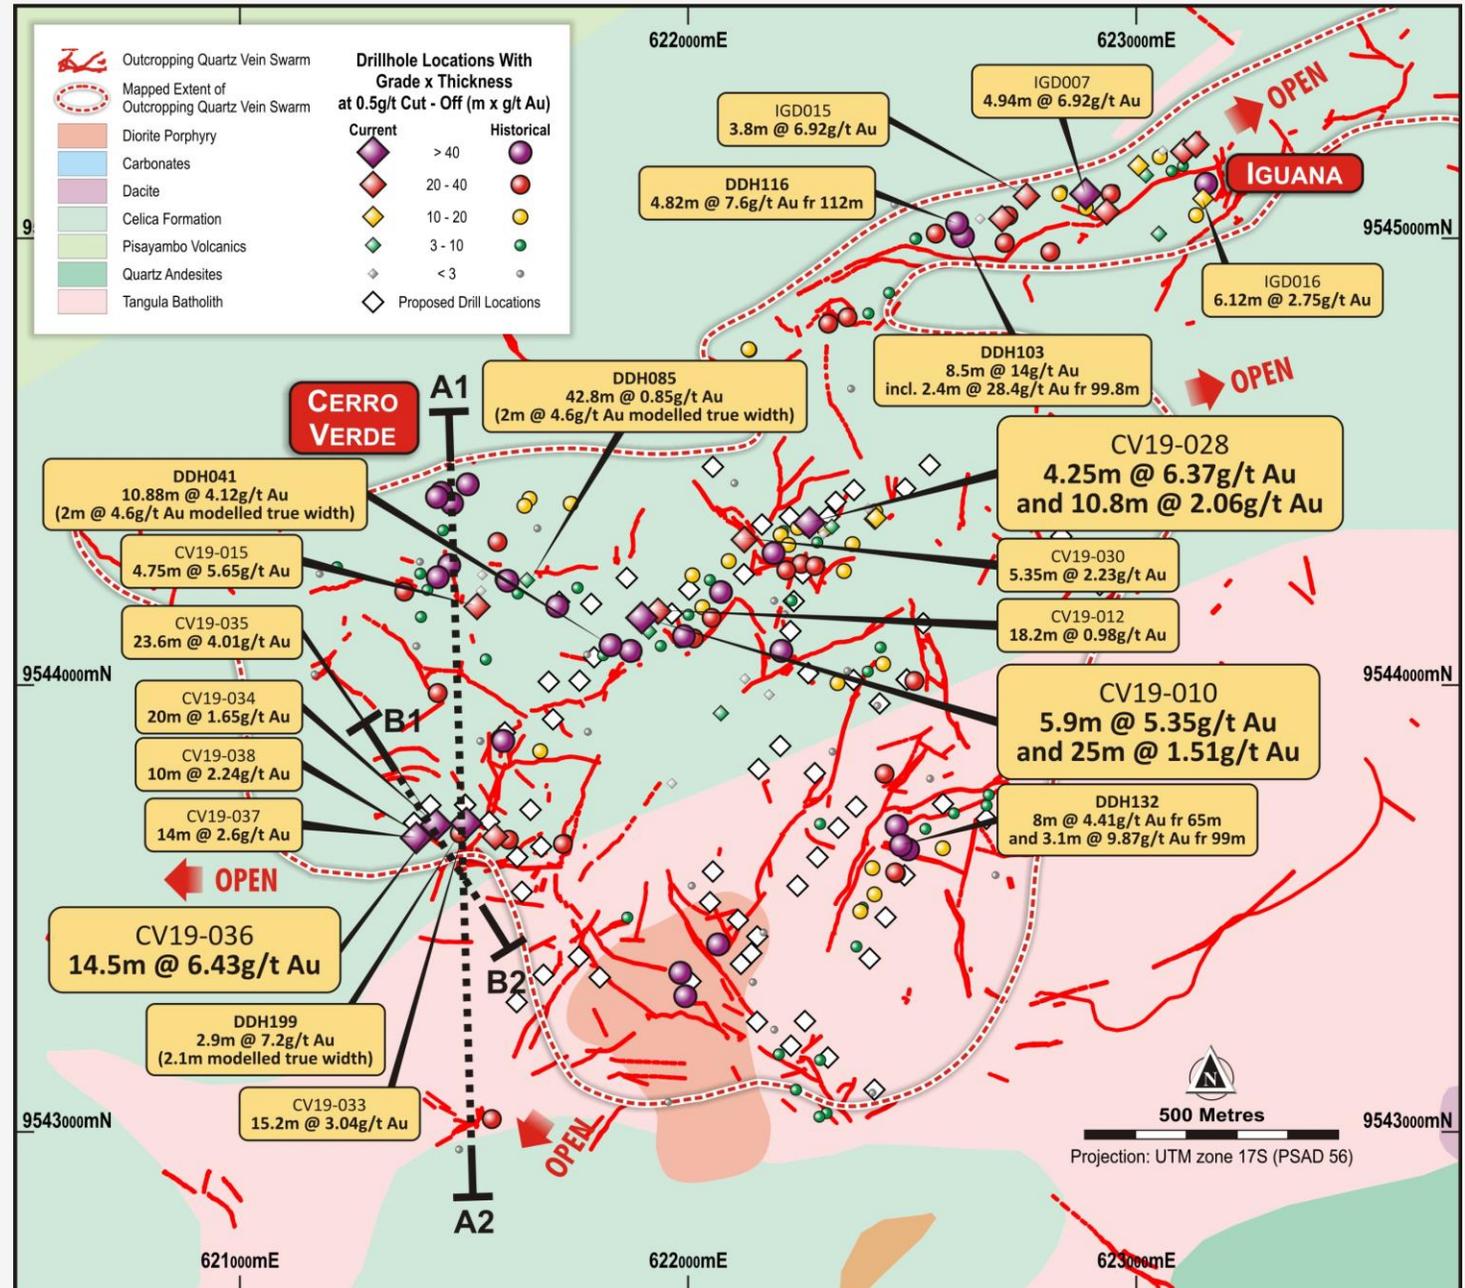

Dynasty Gold Project

Cerro Verde Prospect – Bulk tonnage potential

Cerro Verde

Trial Mining

- Assay results demonstrate high-grade gold mineralisation outside of existing resource
- Cerro Verde – open along strike and at depth
- High density veining supports potential for bulk tonnage mining over some areas
- 3 years of small-scale mining completed through March 2020
- 220,000 tpa mined averaging 3.46g/t gold
- Multiple veins discovered during mining not modelled from historical drilling
- Resource Reconciliation – 69% more tonnes mined versus resource at 15% lower grade
- 40% more gold extracted versus resource estimate⁽¹⁾

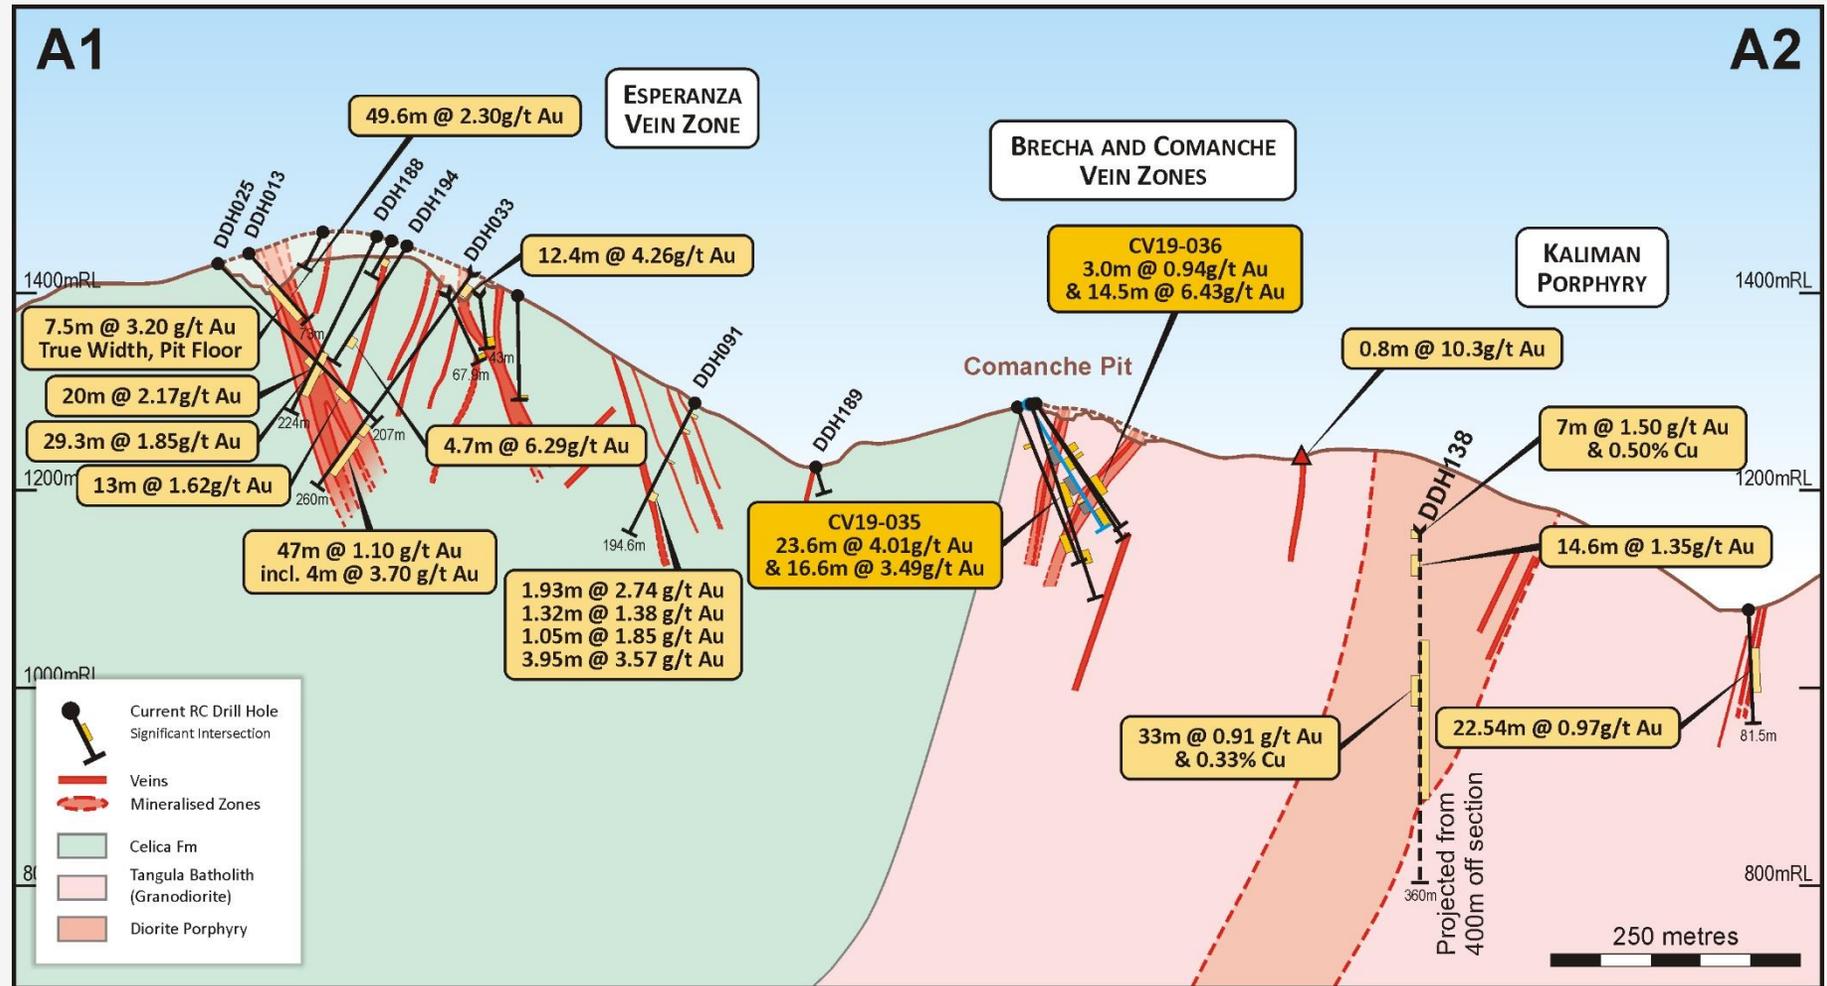

(1) The Mineral Resource Estimates for Dynasty is not reported in accordance with the JORC Code, 2012. A competent person has not done sufficient work to classify the foreign estimate as mineral resources in accordance with the JORC Code 2012. Please refer to Notes to Mineral Resources on page 2

Dynasty Gold Project – Bulk tonnage potential

Current Foreign Resource: 2.1Moz (14.4Mt @ 4.5 g/t Au)

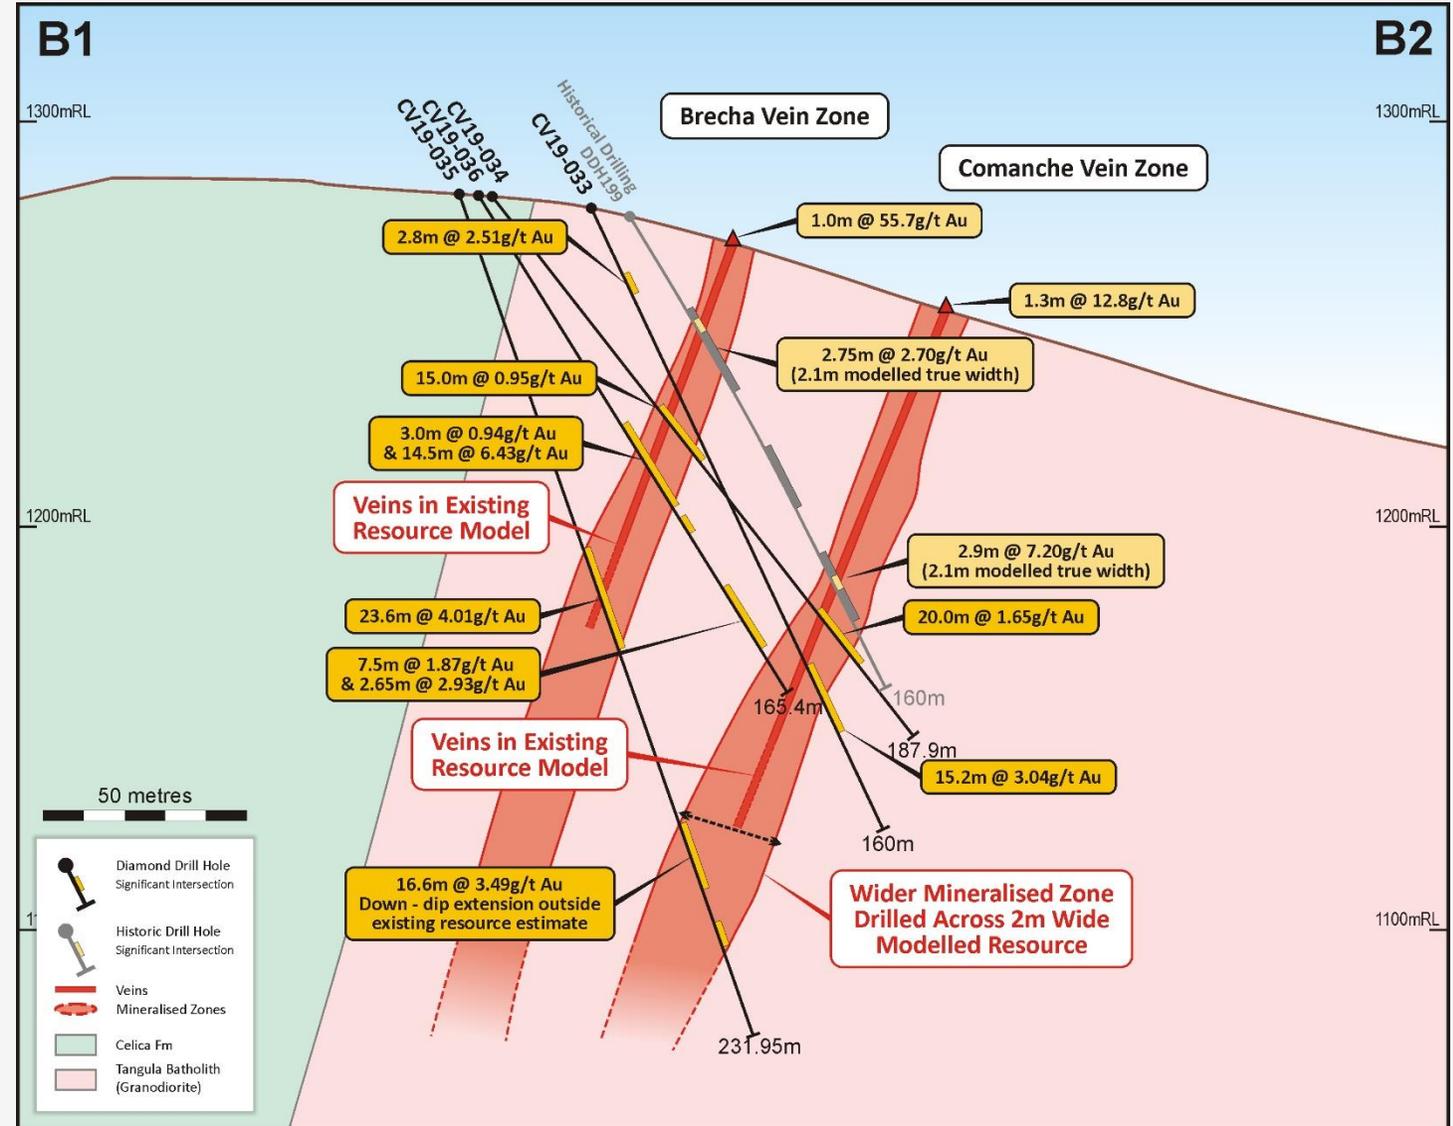

- Gold mineralisation confirmed over 300m of vertical extent
- Cerro Verde shows high-density veining and mineralisation halos around some known veins
- Initially 3 modelled veins targeted in mining
- Mining commenced at Esperanza and exposed a further 8 veins
- Undrilled vein orientations identified during small scale mining are not modelled in the current resource

Refer to Slide 10 for section location

Dynasty Gold Project – Emerging large-scale gold system

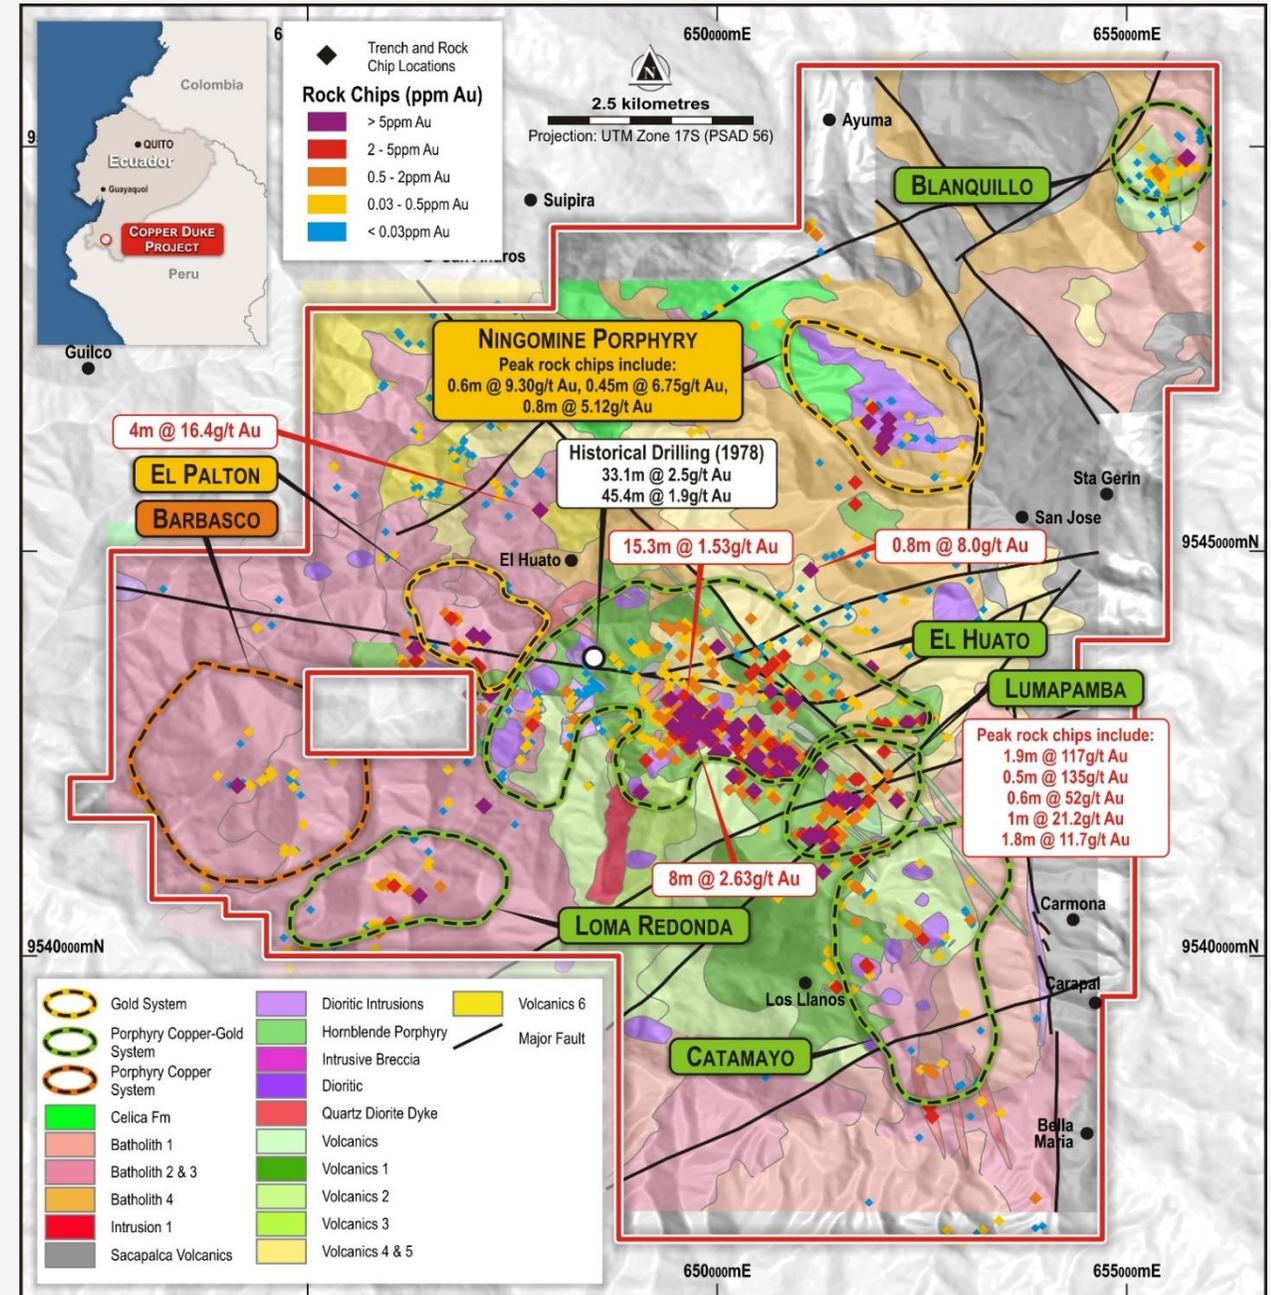

- Resampled drill holes at Cerro Verde indicate deeper and broader gold halos than previously modelled
- Mineralised intercepts 3 to 5 times wider than previously modelled
- Grade increasing with depth
- Broader intercepts, across previously modelled zone:
 - Halo around Brecha Vein not modelled: 14.5m @ 6.43g/t gold from 119m – CV19-036
 - Halo around Comanche Vein not modelled: 16.6m @ 3.49g/t gold from 171.4m (down dip) – CV19-035
- Extension intercepts:
 - 14.0m @ 2.60g/t gold – CV20-037
 - 10.0m @ 2.25g/t gold – CV20-038

Refer to Slide 10 for section location

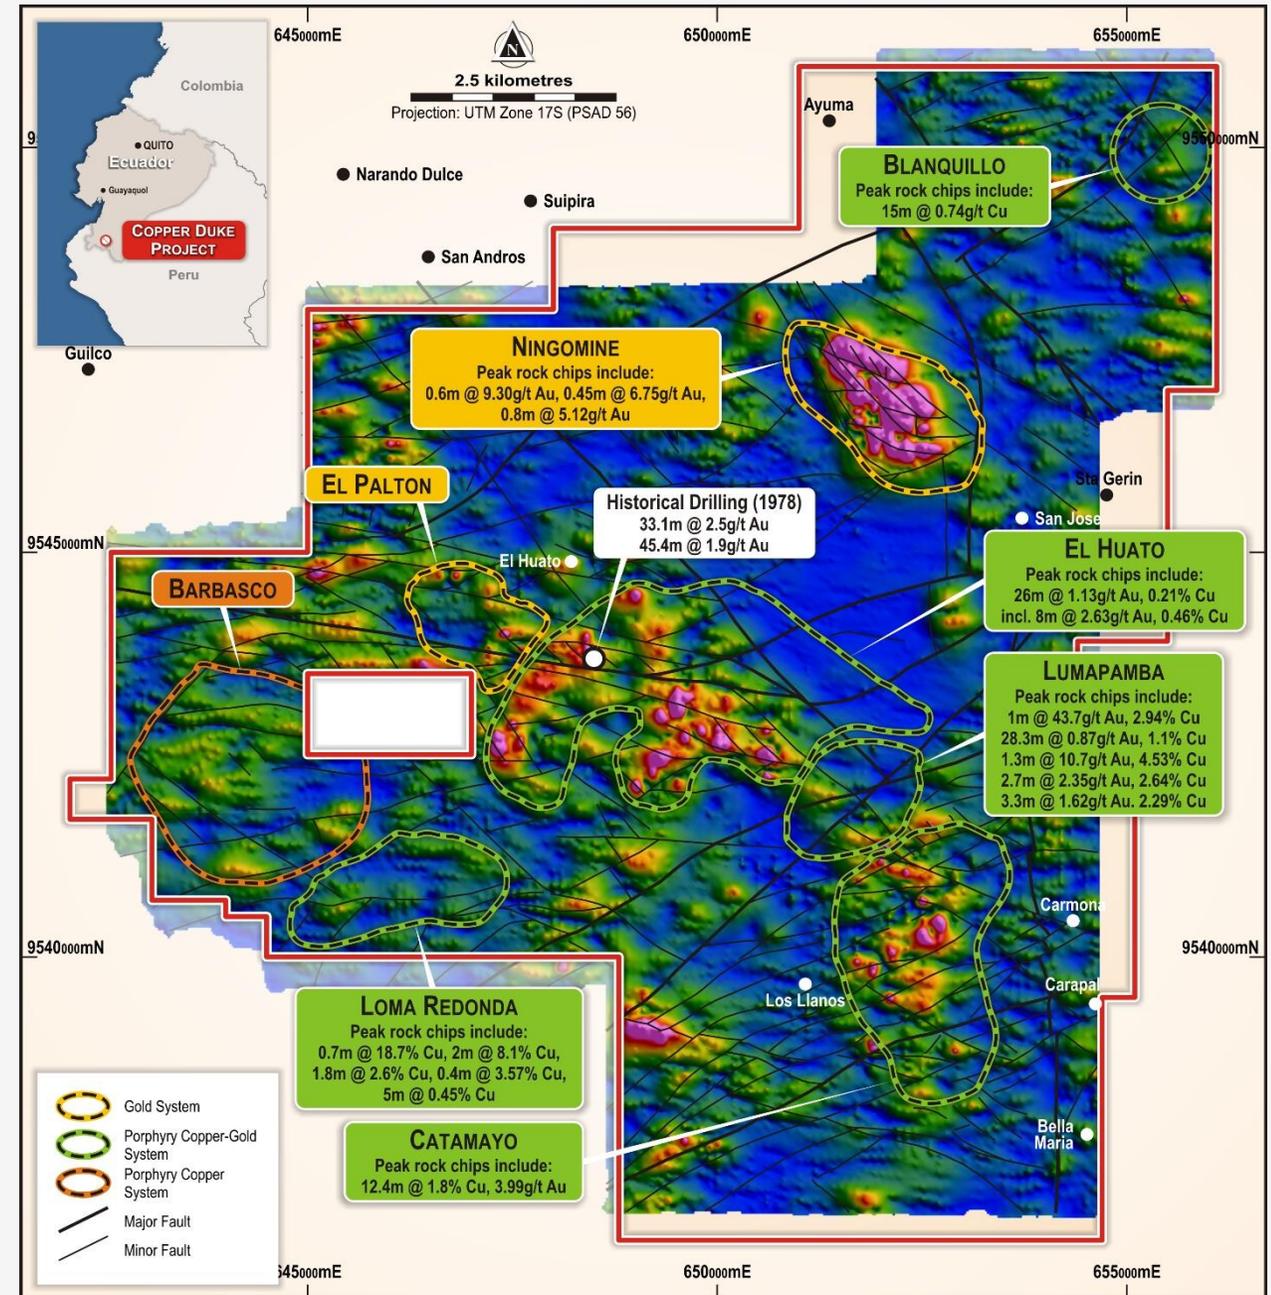

Copper Duke Project – Tier 1 Potential

- 18km east of Dynasty
- 130km², 100% holding
- Multi-phase outcropping porphyry targets, including:
 - Porphyry copper-gold mineralisation
 - Epithermal gold bearing quartz-magnetite vein systems
- Open-ended surface geochem anomalism in soil and rock sampling with drill ready targets
- 1978 UN drill programme – 440m in two diamond drill holes from a single platform were partially assayed and returned:
 - 33.1m @ 2.5g/t Au from 9m drill depth
 - 45.4m @ 1.9g/t Au from surface
- 5km south of the Pan American Highway
- Systematic Soil Survey is underway, 40% complete – results pending

Copper Duke Project – Geophysics

- Magnetic anomalies correspond with high-grade gold and copper geochemistry associated with porphyry style mineralisation observed at surface
- Airborne Survey confirmed and extended a corridor hosting multiple clusters of intrusive centres
- Clusters of intrusion related anomalism cover an area greater than 12km²
- 3D geophysical modelling of airborne magnetic surveys with target review and ranking is underway
- Characteristics similar to many major porphyry districts in the world that host Tier 1 assets
- Geophysical signature analogous to projects such as Cerro Casale and Reko Diq

Linderos Project – High-grade gold discovery

- 143km², 100% owned
- Located 20km southwest of flagship Dynasty

Los Linderos

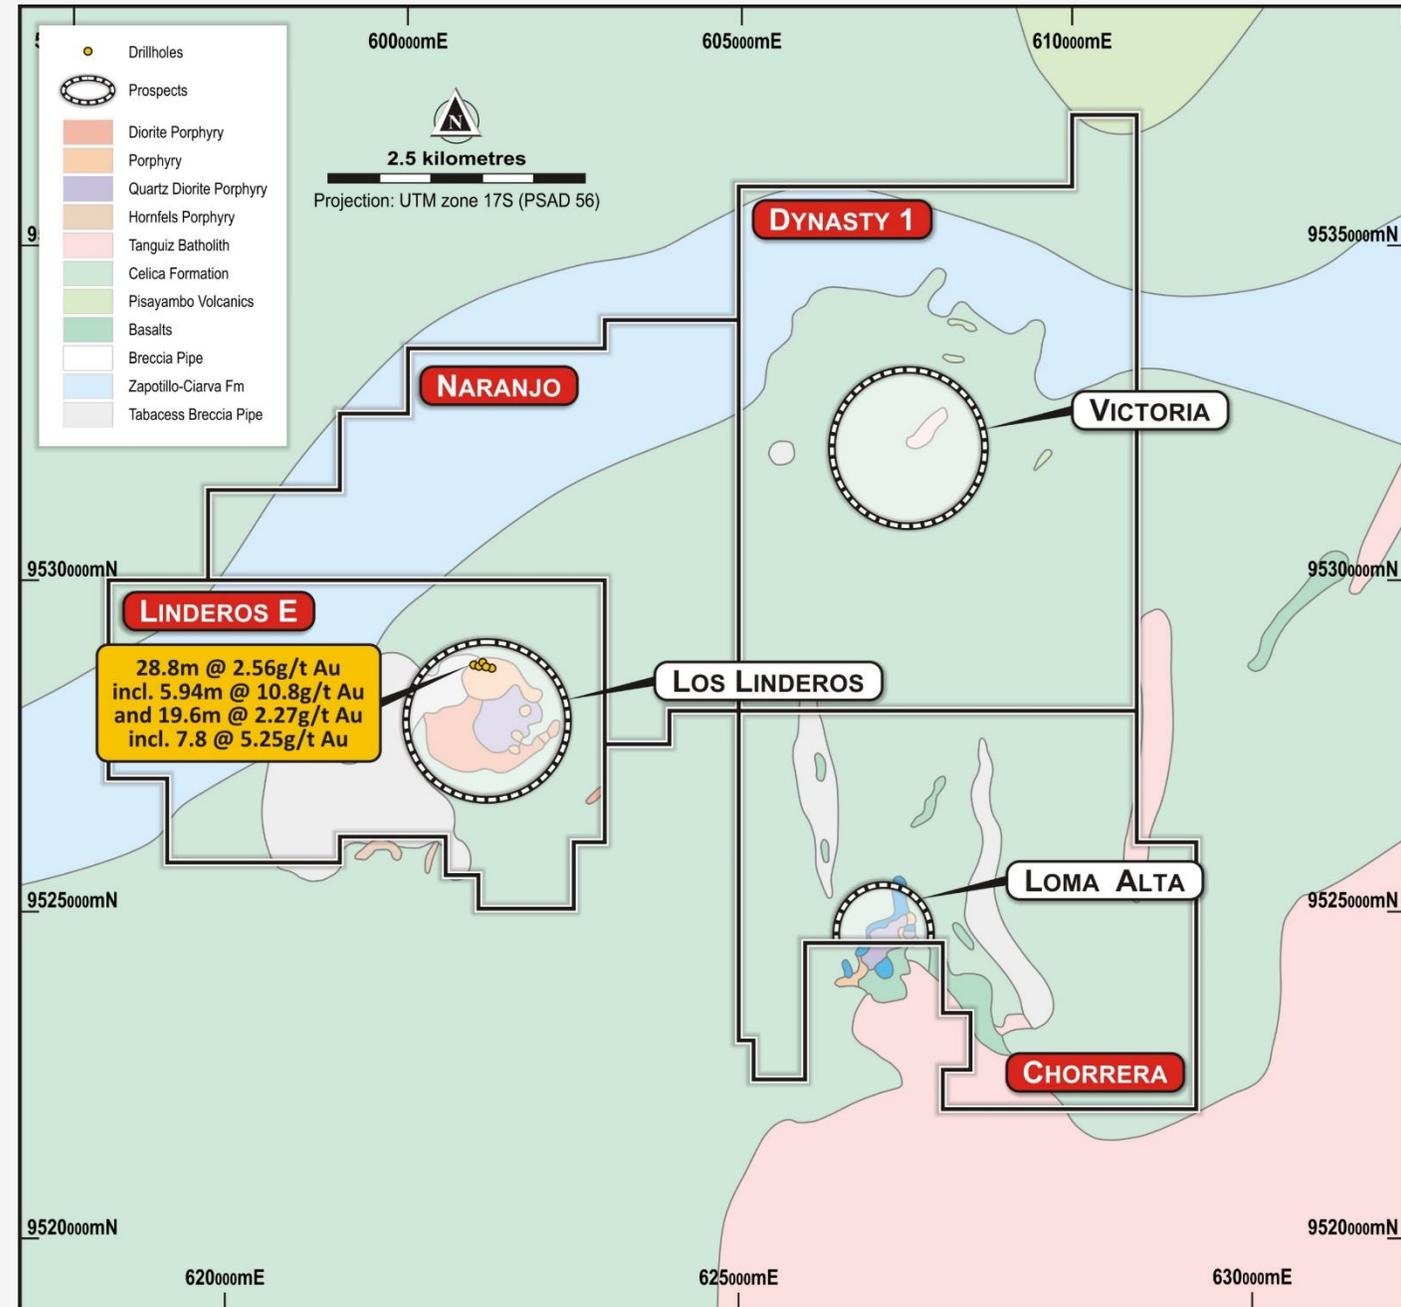

- High sulphidation gold system on the margin of copper porphyry related anomalism at surface
- 2017 trenching campaign, better intercepts include:
 - 21.0m @ 18.5g/t Au
 - 20.0m @ 14.3g/t Au
 - 18.2m @ 14.7g/t Au
- 2018 maiden drilling campaign include:
 - 5.94m @ 10.8g/t Au (inc. in 28.80m @ 2.56g/t Au)
 - 7.80m @ 5.25g/t Au (inc. in 19.60m @ 2.27g/t Au)

Loma Alta

- Underexplored with mineralisation at surface

Victoria

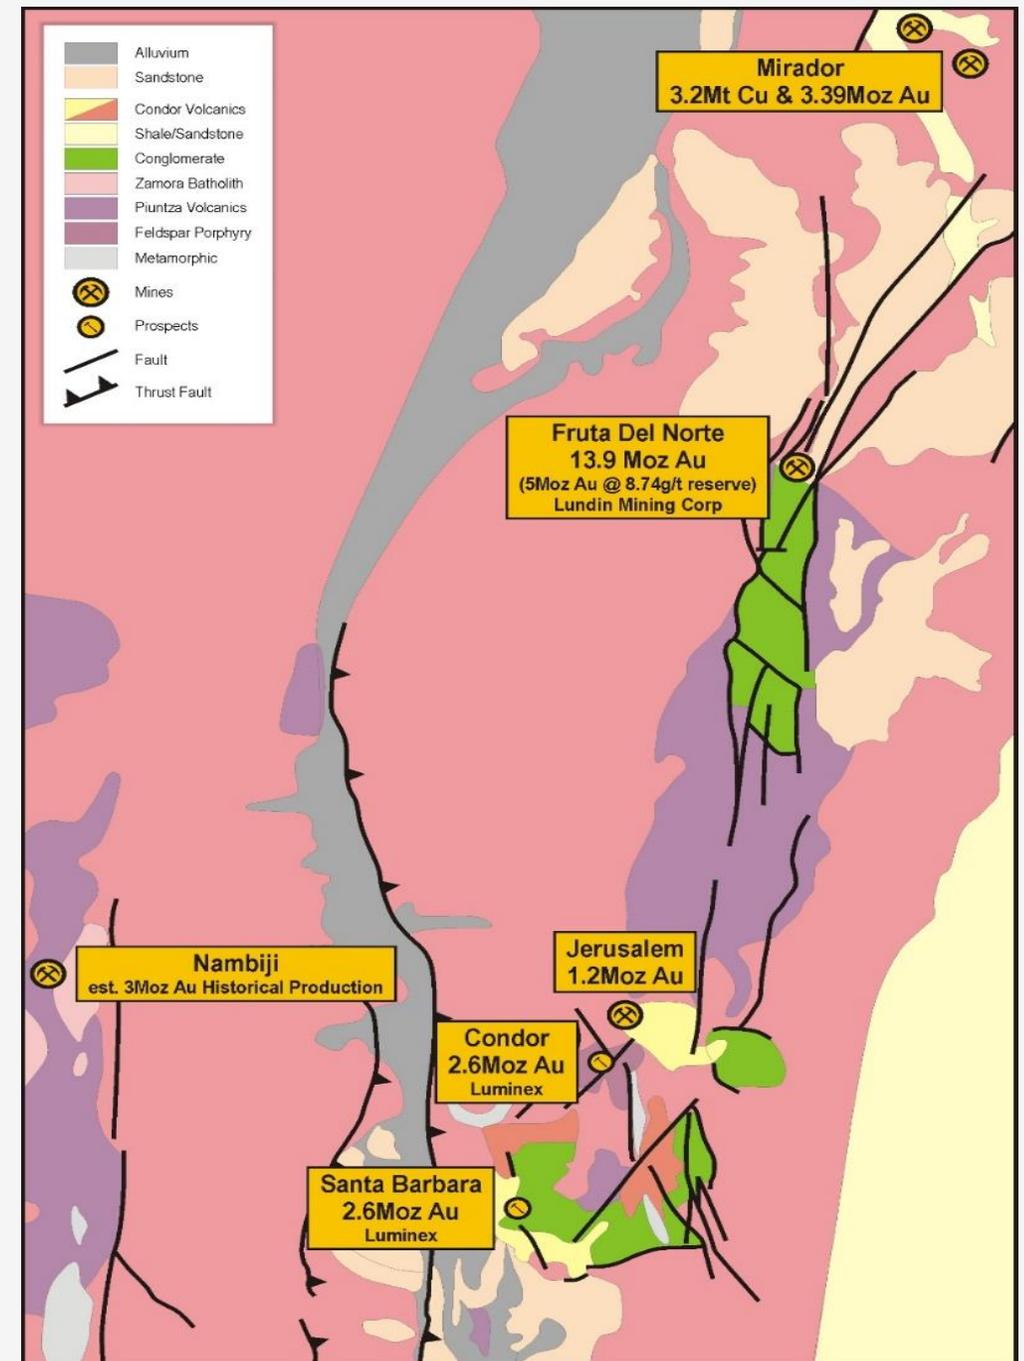

- High-grade gold veining on Tangula Batholith margin

Jerusalem Gold Project

High-grade gold and silver asset

- 100% owned 2.25km² concession
- High-grade vein mineralisation from surface
- Historical diamond drillhole dataset of 47 diamond holes totalling 13,383m
- Total Foreign Resource: 1.28Moz gold @ 14.5g/t and 8.6Moz silver at 98g/t⁽¹⁾
 - Measured & Indicated – 955,000 tonnes @ 13.8g/t gold and 93g/t silver for 423,000oz contained gold and 2.86Moz contained silver⁽¹⁾
 - Inferred – 1,775,000 tonnes at 15g/t gold and 101g/t silver for 856,000 oz contained gold and 5.76Moz contained silver⁽¹⁾
- Located on-trend between Lundin Gold's Fruta del Norte deposit (13.9Moz gold) 40km to the north, and contiguous landholding with Luminex Resources Condor Project (5.2Moz gold) to the south
- Numerous high-grade targets identified but not explored and the system remains open to the north and at depth
